# ORGANIZATION

## OF THE

### CITY GOVERNMENT, JANUARY 5, 1914.

---

The meeting was called to order in the opera house at 8 o'clock in the evening.

The oath of office was administered by City Clerk, Irving V. Goss to Mayor-elect William W. Edwards and Councilmen-elect Alvin C. Gilman of Ward One, Ralph B. Griffin of Ward Two, and Arthur M. Hancock of Ward Three.

Prayer was offered by Rev. H. C. McDougall.

Mayor Edwards delivered his inaugural address as follows:

#### MAYOR EDWARDS' INAUGURAL.

*Gentlemen of the City Council:*

I would be lacking in the best characteristics of a human being if at this time I failed to express to the citizens of Franklin my thanks for their renewed expression of confidence by reelecting me to this position, and as the truest proof of my appreciation for their splendid vote of approval, I pledge my efforts for the best interests of Franklin and its future, realizing that in so doing I am in fact the servant of the people.

The administration of the affairs of a municipality should be conducted on the same business basis as that of any great mercantile or manufacturing industry, free from political obligations as to the past, present or future, having for a single purpose, the giving to the tax payers an honest equivalent for every dollar expended, and if such a method is adopted and adhered to, success is certain, while any other course inevitably brings disaster and discontent.

The mayor and council for 1913 endeavored to follow such a course with the city's business, and I confidently express the opinion that such a line of conduct will be followed in 1914, and if we hew our actions to such a line, we need have no fear in rendering an account of our stewardship to those who have placed their affairs in our hands—The People.

### City Debt.

At the beginning of 1913 the debt of the city amounted to \$213,072 while at the present time the debt is \$205,072, a reduction of \$8,000. The tax rate remains the same, and while reducing the debt, no necessity has been neglected.

### Highways.

From my observation and experience, I am fully satisfied that the appropriation for highways should be materially increased, and that in making repairs or building new roads, the work should be of a permanent nature rather than repairing or building for the present only. I should favor building a few miles of highways each year and doing it in a substantial manner, rather than building more miles and soon be obliged to go over the same again, for in the long run by building in a substantial manner the city will save money and the roads will last longer, especially if the slight repairs incident to wear are made at once, rather than neglecting them for a long period and then be obliged to rebuild in part. I trust the highway committee will give their serious consideration to these suggestions and see that the highway commissioner carries them into effect.

I believe that it will be necessary that we do something on Central street during the present year, and I would recommend that this street be put in first class condition between the two iron bridges, that sidewalks be straightened and put in thorough repair. I would ask you to give this matter careful consideration and investigation, determining if possible, the probable cost of making a permanent job of it. This matter I would like to have disposed of at the April meeting of the council and would ask as many of the tax payers as possible to attend that meeting so that we may have the benefit of their ideas in regard to the matter.

I find that in laying out of highways in the past there has been great laxity in completing the records of the same, and

and in several cases it will be necessary to re-establish the location and complete the records.

There are several instances where petitions for laying out highways have been granted and the location established, but the actual work has never been completed. In such cases, I recommend that the same be completed and put in serviceable condition in order to avoid possible litigation. In this connection, I desire to call attention to the necessity of guard rails on many of our highways which are now neglected and in a dangerous condition.

### **Garbage.**

During the past year the council adopted a system whereby the garbage has been collected from the business section each week, and from the residential section each month. This work should be continued and extended if possible. The cost of doing this work is more than offset by the results obtained.

### **Traffic Regulations.**

With the increasing number of automobiles in use, the time has apparently arrived when traffic regulations should be adopted by the city and I would ask you to give this matter consideration as soon as possible.

### **State Highways.**

In all future work on State Highways, I recommend that the work be done by contract or a special superintendent be employed, as it has been proven that if our highway commissioner is engaged on work on the state highways, the other highways in the city suffer from neglect as a consequence, and the city must bear the extra expense necessary to replace them in fit condition for use.

### **Sidewalks.**

One hundred and eighty-five square yards of new sidewalks were laid during the past year in addition to re-covering 2618 square yards of old walks, and 297 square yards of crossings. There are many streets still in need of crossings and new sidewalks and I recommend that such appropriation be made for 1914 as will permit this much needed improvement.

### Sewers.

During 1913 there were 1380 feet of new sewer laid in addition to repairing and maintaining the sewer already constructed, all of which came well within the appropriation. Several petitions for new sewers were presented after the appropriations were made which could not be granted at that time, but will be considered during 1914.

### Parks.

Franklin is fortunate in having a public park which provides a delightful recreation spot in summer, an athletic field where all kinds of sport may take place, and affording in winter a safe skating place for our young people. All this has been made possible through the generosity of one of our public-spirited citizens who has always had the future welfare of Franklin at heart. And not only now, but in the future will our thanks and appreciation be given to Mrs. Lucie H. Odell. May her example of public spirit for Franklin's future welfare be an incentive for others to follow.

The city has had during the year another park bequeathed to it and this location and soil seem to warrant carrying into effect a suggestion made to me, that the Daniell Park be planted with pine trees which will add to its value and future usefulness to the city.

### Fire Department.

Our fire department is now well equipped for efficient service and is on the whole satisfactory.

There has been raised, however, a question as to whether there should not be a change made in the election of members of the various companies, and it has also been recommended that an additional assistant engineer be elected on this side of the river. I suggest that you early investigate and consider these matters with a view to taking action as soon as possible.

The present method of keeping the time of the men is far from satisfactory, and a better system should be inaugurated in order that there may be positive knowledge as to the services rendered by each man. Returns should be made to the Fire Department committee each month so that they may keep in closer touch with the expenditures of the department.

### Manual Training School.

In accordance with the recommendation made by me last year, a manual training school has been installed which is under the supervision of a competent superintendent, and proving a success in fitting our boys for future usefulness in the world.

The more useful occupations that we can find for our boys and girls increase the moral standing of the community while idleness decreases the moral standing.

### Domestic Science.

I renew my recommendation for the establishment of a school for domestic science for we are in duty bound to give the girls advantages equal to the boys, and in these days of high cost of living they need early knowledge of the responsibilities that they will be called upon to perform later in life. I should not be just to myself nor the boyhood and girlhood of Franklin if I did not condemn the act passed at the last session of the legislature, which deprives boys and girls of obtaining useful knowledge and developing the quality of thrift during the school vacation period. To prohibit boys and girls from learning to work is to deprive them of a part of their birthright and teaches them to grow into idle and useless citizens.

I trust that the representatives from Franklin to the next session of the legislature will be pledged to work and vote for the repeal of the act in so far as it applies to the vacation period only, for I am most certainly opposed to the employment of our young people during school terms.

### Night Schools.

I am equally insistent that my former recommendation for a night school be carried into effect, for we are under a moral obligation to give our constantly increasing mixed population the opportunity to early acquire knowledge as to our form of government, and instruct them in the requirements that make for the best of citizenship, as well as assisting those who for one cause or another were in whole or in part deprived of their early education.

### **School and Library Buildings.**

Our school buildings and public library are the property of the citizens, and should be open at all times for use for all proper purposes, such as general meeting places, lectures and like matters when it will not interfere with the regular school work.

### **Medical Inspection.**

At the last session of the legislature an act was passed providing for medical school inspection which has been adopted by the city, and a competent medical inspector appointed.

Proper inspection of the children will correct in the first stage eye, ear, and throat troubles, and will prevent the spread of disease as it will be discovered at its origin.

Gentlemen, our schools are the greatest foundation for equipping our children for good citizenship, and providing for the future welfare of our country, and I most heartily favor liberal appropriations for the same.

### **Curfew Law.**

Your attention is called to an act passed at the last session of the legislature known as the Curfew law which prohibits children under 16 years of age being on the streets after nine o'clock at night without a parent or guardian, and I invite your consideration as to the advisability of adapting the provisions of that act for Franklin.

### **Police Department.**

The police department in any city should be one of its most active and valuable departments, and exist in fact as well as in name. It should on its own initiative see that the ordinances and laws are enforced, and not wait to have violations which are perfectly apparent to all other citizens, brought to its attention.

In our police department there is unfortunately an apparent lack of well defined duties, and appreciation of responsibilities.

Officers should be required to fully acquaint themselves with the city ordinances and laws and then see

that they are enforced to the letter, which if done will command the respect of the citizens as well as their appreciation, and give the city a higher standing in the estimation of its visitors and neighbors.

Many complaints have been made that the officers permit men and boys to stand in doorways and on the street curbing thereby compelling those who desire to pass to step into the street, and that these same parties too often address annoying and insulting remarks to women and girls without receiving a reprimand or arrest by the officer.

A few arrests for such rowdyism would soon put a stop to such a nuisance and make our streets more inviting to our wives and daughters.

### **Sale of Intoxicating Liquors.**

Some people seem to entertain the opinion that the entire enforcement of the liquor laws rests with the mayor, and for the information of such I desire to call your attention to the fact that Chapter 117, Laws of 1905, provides that—The Superior Authority in the enforcement of the laws prohibiting the sale of intoxicating liquors and the prosecution of offenders against such prohibitory laws under the provision of this act shall be the Attorney General and County solicitors acting under his direction. Any citizen who has reason to believe that the liquor laws are being violated can make complaint to either the Attorney General or County Solicitor who will consider the communication as confidential and whose duty it is to investigate and prosecute, if the facts warrant.

It is also a part of the duties of the police department to see that these laws are enforced and it is in duty bound to investigate any complaint made to it. The City of Franklin voted no-license and so far as it is in my power to do so, I shall endeavor to see that the laws are enforced.

### **City Officials.**

In selecting the city officials you should select men who are competent to perform the duties required of them regardless of political lines or as reward for political services—the sole requirement being whether the

city will receive the best possible service from them. If during the year and any city official fails to perform his duties, you should not hesitate to prefer charges against him, and if the facts warrant, vote to remove him from office.

### Records.

During the past year a new vault has been installed for the care and preservation of city records, and it is important that these records be properly indexed for which purpose an appropriation should be made, and the work performed by some competent person.

Gentlemen: all possible steps should be taken to advance the interests of Franklin, and make it not only one of the best cities in the state as it is now, but to make it the very best city in the state, and on all possible occasions advertise the fact that to live in Franklin is a privilege, and that we appreciate our advantages.

If to any of you, gentlemen, my remarks seem in the nature of a criticism or censure, I would assure you that such is not my intention, but rather to point out existing defects, all of which can be remedied, and inaugurate a spirit of advancement and co-operation which will make for the future benefit of the city.

In closing, I ask of you, Gentlemen of the Council, your hearty co-operation at all times, and in all matters that directly or indirectly affect the interest of the city.

# CITY GOVERNMENT.

Organized January 5, 1914.

---

## CITY COUNCIL.

---

### Mayor.

Elected annually on the fourth Tuesday of November. Salary \$200 a year.

WILLIAM W. EDWARDS.

---

### Councilmen.

Elected by wards for three years. One member from each ward elected on the fourth Tuesday of November annually. No salary.

<i>Ward 1</i> —MACE C. HEATH,	January 4, 1915
GEORGE S. DAVENPORT,	January 3, 1916
ALVIN C. GILMAN,	January 2, 1917
<i>Ward 2</i> —MAXIME A. PROULX,	January 4, 1915
SAMUEL JANNELLE,	January 3, 1916
RALPH B. GRIFFIN,	January 2, 1917
<i>Ward 3</i> —DANIEL FAWDREY,	January 4, 1915
JOSEPH M. LORDEY,	January 3, 1916
ARTHUR M. HANCOCK,	January 2, 1917

**Standing Committees of the City Council, 1914.**

HIGHWAYS—HANCOCK, JANNELLE, HEATH.

SEWERS—JANNELLE, FAWDREY, GILMAN.

FIRE DEPARTMENT—GRIFFIN, DAVENPORT, HANCOCK.

POLICE—FAWDREY, DAVENPORT, GRIFFIN.

SCHOOLS—DAVENPORT, LORDEN, PROULX.

PUBLIC LANDS AND BUILDINGS—GILMAN, HANCOCK,  
JANNELLE.

ORDINANCES—PROULX, HEATH, FAWDREY.

STREET LIGHTING—LORDEN, PROULX, GILMAN.

CEMETERIES—HEATH, LORDEN, GRIFFIN.

FINANCE—THE MAYOR, HANCOCK, FAWDREY.

---

**City Clerk.**

Elected annually by the City Council. Salary and allowance \$600 a year.

IRVING V. GOSS.

---

**City Solicitor.**

Elected annually by the City Council. Salary \$200 a year.

THOMAS F. CLIFFORD.

---

**Treasurer.**

Elected annually by the City Council. Salary \$150 a year.

FRANK PROCTOR.

---

**Assessors.**

Elected annually by the City Council. Salary \$175 a year each.

WILLIAM E. CARR,

THOMAS N. LAPOINTE,

GILBERT G. FELLOWS.

**Overseer of the Poor.**

Elected annually by the City Council. Salary \$100 a year.

\* LEWIS W. PHILLIPS.

† IRVING V. GOSS.

**Highway Commissioner.**

Elected annually by the City Council. Salary \$1,000 a year.

WILL GORDON.

**Janitor of Memorial Hall.**

Elected annually by the City Council. Salary \$300 a year.

SQUIRE DURHAM.

**Custodian of City Clock.**

Elected annually by the City Council. Salary \$25 a year.

GEORGE G. FOWLER.

**Tax Collector.**

Elected annually by the City Council. Salary \$400 a year, to include collection of brown tail moth account.

WILLIAM A. DUSSAULT.

**Board of Education.**

One member elected annually by the City Council for three years.  
No salary.

Term Expires.

ENOS K. SAWYER,	January 4, 1915
REV. H. C. MCDUGALL,	January 3, 1916
HARRY W. BURLEIGH,	January 2, 1917

At the City Election on November 24, it was voted that members of the Board of Education be elected at special meetings called for that purpose.

\* Died February 18, 1914.

† Elected March 2, 1914.

**Janitor of Heating Plant.**

Elected annually by the City Council. Salary \$400 a year.

SQUIRE DURHAM.

**Board of Water Commissioners.**

Two members elected annually by the City Council for three years.  
No salary. Salary of Clerk \$200 a year.

Term Expires.

ALVAH W. SULLOWAY,	January 4, 1915
THOMAS F. CLIFFORD,	January 4, 1915
FRANK N. PARSONS, (clerk)	January 3, 1916
GEORGE D. MOWE,	January 3, 1916
WARREN M. DRAPER,	January 2, 1917
JASON KIDDER,	January 2, 1917

**Superintendent of Water Works.**

Appointed by the Water Commissioners.

EPHRAIM L. WALLACE.

**Constable.**

Elected annually.

ROLLIN E. DAVIS.

**City Physician.**

Elected annually by the City Council. Salary \$50 per year.

WILLIAM E. SMITH.

**Board of Park Commissioners.**

Established March 3, 1913. One member elected annually by the City Council for three years. No salary.

Term Expires.

EDWARD G. LEACH,	March 3, 1915
MRS. HERMAN J. ODELL,	March 3, 1916
FRANK PROCTOR,	March 3, 1917

**Sealer of Weights and Measures.**

Appointed annually by City Council.

EDWARD L. WELCH.

---

**Board of Health.**

Elected annually by the City Council. Salary of first, \$180; second, \$50; third, \$25.

WILLIAM E. SMITH, Secretary

HECTOR MORIN,

IRVING V. GOSS.

---

**City Auditor.**

Appointed annually by the Mayor. Salary \$100 per year.

FRED C. MERRILL.

---

**Trustees of Public Library.**

Two elected annually by the City Council for three years. No salary.

† Appointed June 29.

# POLICE DEPARTMENT.

---

## City Marshal.

Elected annually by the City Council. Salary \$800 a year.

JULIUS B. HALE.

---

## Police.

Appointed by the City Council. Salary \$780 a year.

LOUIS BASSETT.

---

## Special Police Officers.

Elected by City Council upon recommendation of City Marshal.

Salary \$2.00 a day, when on duty, and fees.

MACE C. HEATH,

HARRY E. COLBY,

L. J. SEYLER,

LOREN B. GREELEY,

GEORGE H. P. PERKINS,

SQUIRE DURHAM,

JOHN HANCOCK,

THOMAS HOLDEN,

JOHN E. MACALONEY,

FRANK P. WILSON,

MICHAEL J. DOHERTY,

ALBERT C. HUEBER,

GEORGE ALDRICH,

CLYDE F. JOSLYN,

FRANK E. YOUNG,

JOHN S. WILSON.

## FIRE DEPARTMENT.

---

One chief and two assistant engineers elected annually by the City Council. Salary, chief engineer \$100 and 50c per hour for services at fires; assistant engineers \$30 a year each and 50c per hour for services at fires.

### Chief Engineer.

HARRY E. COLBY.

---

### Assistant Engineers.

JAMES W. HUNTOON,

JOHN E. CUNNINGHAM.

---

### Firemen.

Appointed by the engineers. Salary \$20 a year each, and 50c for first hour, and 35c per hour thereafter for services at fires.

---

### Hose Company, No. 1.

CAPT. NED FLANDERS, 10 men.

---

### Steamer and Hose Company.

CAPT. EDGAR H. WHEELER, 15 men.

---

### Hook and Ladder Company.

CAPT. AMEDOS ROUSSEAU, 15 men.

---

### Superintendent of Fire Alarm.

Elected by the City Council. Salary \$50 a year.

HARRY W. BURLEIGH.

---

### Blower of Fire Alarm Test.

Elected by the City Council. Salary \$35 per year.

GILBERT G. FELLOWS.

## WARD OFFICERS.

---

### WARD ONE.

Elected biennially by the ward.

*Moderator*—GEORGE S. DAVENPORT.

Elected biennially by the ward.

*Ward Clerk*—FRANK R. KELLOGG.

### WARD TWO.

Elected biennially by the ward.

*Moderator*—MAURICE N. CUSHING.

Elected biennially by the ward.

*Ward Clerk*—ERNEST B. SCHWARTZ.

### WARD THREE.

Elected biennially by the ward.

*Moderator*—GEORGE H. BARTLETT.

Elected biennially by the ward.

*Ward Clerk*—HENRY L. STEVENS.

---

## Ballot Inspectors.

### WARD ONE.

JAMES P. MALONEY,  
EDWIN A. FLANDERS,

JOHN F. CREHAN,  
GEORGE S. FRENCH.

### WARD TWO.

WALTER GIRARD,  
ALBERT GARNEAU,

THOMAS N. LAPOINTE,  
WILLIAM H. AINLEY.

### WARD THREE.

DANA F. FELLOWS,  
HARRY F. DAVIS,

HENRY E. RAINVILLE,  
LUKE BERGERON.

**Supervisors of the Check-Lists.**

Elected biennially by the ward.

**WARD ONE.**

GEORGE H. NIXON,

HARRY RICHARDSON,

CHARLES C. DIMOND.

**WARD TWO.**

ERNEST ELLIOTT,

FRANCIS T. DOUPHINET,

JEAN B. LEMIRE.

**WARD THREE.**

HARRY W. WALTON,

WILLIAM H. MARTIN,

ALFRED G. THOMPSON.

# FINANCIAL REPORT.

# HIGHWAY DEPARTMENT.

## HIGHWAY COMMISSIONER'S REPORT.

*To the Mayor and Council of the City of Franklin:*

I herewith submit the following report as Highway Commissioner for the year 1914:

About 3300 lineal feet of macadam surface on Central street was spiked up and re-covered.

On North Main street, about 2,400 lineal feet of road was spiked up and nearly all recovered.

The macadam on Depot street was thoroughly repaired, 600 feet of roadway on Prospect street has been graded twenty feet in width and new macadam constructed on same.

On Auburn street, 328 feet of Tarvia X bituminous road was constructed.

The sum of \$415.76 was paid during the year for road oil, which was used with sand as surface treatment on the following streets:

Prospect street . . . . .	1,000 ft.
Central street . . . . .	2,600 ft.
Cheney street . . . . .	500 ft.

and on South Main street from Depot street to the Kenrick residence.

The sum of \$500 was appropriated for improvement of the Sanbornton road and this amount enabled the department to grade and cover with gravel 2,600 lineal feet of same.

On the Andover road 2,000 feet were graded, widened and covered with clay or gravel and new guard rail erected.

The road from Carr bridge to the Matthews crossing has been made wider and the grade raised about three feet.

The bushes on all the main roads and most of the cross roads have been cut.

About 2500 feet of new guard rail has been built during the year.

#### **Sidewalks.**

About one half mile of new ash walks have been constructed and about one mile of old walks repaired.

75 square yards of new concrete walks have been laid and 2,053 square yards of concrete walks and 240 square yards of concrete crossings have been recovered.

#### **Bridges.**

The Daniell bridge has been painted and two courses of plank laid on roadway of same.

The Sanborn bridge has been painted.

The foot bridge over the Franklin Light and Power Co. dam has been entirely rebuilt and painted.

All outside bridges have been put in good repair. The total cost of the bridge work during the year was \$1,255.98.

#### **Trunk Line Maintenance.**

Twenty-six hundred feet of Tarvia X bituminous road near the Orphans' Home was treated with Tarvia B and covered with sand. The remainder of the road from the Boscawen line to the Kenrick residence was treated with No. 4 Standard Oil and a coat of sand.

From the Clark farm house to the Tilton line the road was treated with Standard Oil and a coat of sand.

#### **State Aid Construction.**

Six thousand feet of clay and gravel road, 21 feet wide, was constructed on the River road.

Four corrugated iron culverts were laid at intervals across the road and about 800 feet of new rail was built.

Heavy showers occurred during the month of August, causing many serious washouts which cost a large amount of money to repair.

WILL GORDON, Commissioner.

# FIRE DEPARTMENT.

---

## ENGINEER'S REPORT.

---

The following report from Dec. 20, 1913 to Dec. 20, 1914 is submitted: The manual force consists of Chief Harry E. Colby and two assistants, James W. Huntoon and John E. Cunningham. The Daniel Webster Steamer Company, 15 men, Edward Wheeler, Captain. The Hook and Ladder Company No. 1, 15 men, Amedos Rousseau, Captain. Hose Company No. 1, South Main street, 10 men, Ned Flanders, Captain.

### Location of Apparatus.

#### Hose Company No. 1, South Main Street.

One light hose wagon.  
One one-horse sled.  
One 30-foot ladder.  
One 25-foot ladder, 500 feet 2½-inch hose.

#### Prescott's Garage.

One automobile hose and chemical wagon, carrying eight pony fire extinguishers, 500 feet 2½-inch hose, boots, coats, and hats, nozzles, axes, etc.

Carries three men besides driver, and nine men going to brush fires.

#### Central Fire Station.

One Amoskeag steam fire engine with swinging harness.

One one-horse hose wagon with swinging harness, carrying two extinguishers with extra charges, hose pipes,

axes, gates, relief valve, ladder straps, spanners, wrenches, hose packet, coats, hats, boots and belts.

One one-horse sled.

500 feet  $2\frac{1}{2}$ -inch hose.

One two horse Seagrave hook and ladder truck, equipped with swinging harness, two extinguishers, extra charges, hose pipe, wire cutter, tin roof cutter, ropes, axes, coats, boots and hats.

One deluge set, with different size tips for same.

The Central Fire Station hose wagon and ladder truck and also the automobile carry four nose and mouth smoke protectors.

### **Hose 3, Central Street, Opposite Paper Mill B.**

One hand reel with pipes, wrenches, spanners and 400 feet  $2\frac{1}{2}$ -inch hose.

### **Hose 4, Head of Elm Avenue.**

One hand reel with pipes, wrenches, axes, spanners, 400 feet  $2\frac{1}{2}$ -inch hose.

One two wheeled truck equipped with one 31-foot roof ladder, one 28-foot, one 20-foot and one 15 foot ladder.

### **Hose 5, Pearl Street, Near Park Street.**

One hand reel with pipes, wrenches, axes, spanners and 400 feet  $2\frac{1}{2}$ -inch hose.

### **Hose 6, Sturtevant Street.**

One hand reel with pipes, wrenches, axes, spanners and 400 feet  $2\frac{1}{2}$ -inch hose.

There is also one 55-foot extension ladder at the city stable.

Pony extinguishers to be used by any person for fire purposes in the vicinity of the places of keeping are in the following places: City Hall 4, Clark's stable 2, Heath's stable 1, Franklin Passenger Station 1.

The old hand tub is kept at Beaupre's foundry.

There is at the Central Fire Station 2400 feet of  $2\frac{1}{2}$ -inch extra hose.

A new contract was made with B. M. Prescott for the use of the Fire Auto Truck at \$960 per year for five years.

**Recommendations.**

We recommend for the year 1915, the purchase of fire alarm boxes, new hose, a life net and new coats for the department.

HARRY E. COLBY,  
Chief Engineer.

JAMES W. HUNTOON,  
Assistant Engineer.

JOHN E. CUNNINGHAM,  
Assistant Engineer and Clerk:  
Board of Fire Engineers.

---

### Regulations of the Franklin Fire Department.

Adopted December 20, 1909.

Section 1. The fire department, of the City of Franklin, shall be composed of a chief engineer, first assistant engineer, second assistant engineer, third assistant engineer, fourth assistant engineer and a superintendent of fire alarm, who shall each be appointed by the city council; one steamer and hose company to consist of fifteen men, one hose company to consist of ten men and one hook and ladder company to consist of fifteen men.

Section 2. The chief engineer and four assistant engineers shall constitute a board of engineers and shall exercise the power of firewards.

Section 3. The chief engineer and each assistant engineer shall hold his office and perform his duties until his successor takes the oath of office.

Section 4. The City Council, for cause, after a hearing, may remove from office the chief engineer or any assistant engineer.

### Chief Engineer.

Section 5. The chief engineer shall have sole command over all persons present at fires whether members of the fire department or not.

Article 1. He shall direct all proper measures for extinguishing fires, protecting property, preserving order at fires, and enforcing laws, ordinances and regulations regarding fires.

Article 2. He shall have charge of and examine into the condition of all fire apparatus, fire alarm system, houses and all fire department property and shall cause needed repairs to be made under the direction of the committee on fire department of the City Council.

Article 3. He shall certify all pay rolls and bills against the department and shall be responsible for the care of all property connected with the fire department.

Article 4. In the absence of the chief engineer the next engineer in rank, who may be present, shall have the power to perform the duties of the chief engineer.

### Board of Engineers.

Section 6. The board of engineers shall inspect and make themselves familiar with all shops, factories, hotels, tenement houses, public buildings, halls, churches and schoolhouses once a year, and study the location of all hydrants and generally inform themselves in all matters pertaining to their duties.

Article 1. They shall have control of all persons appointed to serve in any company of the fire department and shall have power to direct and control the labor of all persons present at a fire.

Article 2. They may from time to time make and enforce such regulations for the government of the department as they may deem proper.

Article 3. They may establish such regulations respecting public safety, kindling, guarding, safe-keeping, prevention, and extinguishment of fires, and for the removal of combustibles from any place, and the keeping or storing of explosives, as they think expedient, which shall be signed by a major part of them, approved by the Council and recorded by the city clerk, and attested copies posted in two or more public places in the city thirty days before they shall take effect.

(a) Penalties not exceeding ten dollars for each offense may be prescribed for breach of such regulations and such regulations shall remain in force until altered or annulled.

Article 4. They shall examine the qualifications and fitness of all applicants for membership in the department and no person, whose application has not been approved by a majority of the board of engineers shall become a member of any company.

Article 5. At the first meeting in each year, after the qualification of the engineers, they shall proceed to elect, by majority vote, a clerk of the board of engineers, a captain, a lieutenant, and a clerk for each company and an engineer, assistant engineer and stoker of the steamer, each of whom shall hold office until his successor is elected.

Article 6. Any member of any company may be dismissed from the department or from office in a company by two-thirds vote of the board present.

Article 7. They shall in conjunction with the annual report of the chief engineer, make recommendations as to the needs of the department.

Article 8. Every engineer shall cause any fire deemed by him to be dangerous, in any street or elsewhere, to be extinguished or removed.

### **Superintendent of Fire Alarm.**

Section 7. The fire alarm system shall be under the control of the chief engineer, with direct supervision by a superintendent of fire alarm who shall be elected by the Council.

---

**Committee on Fire Department.**

Section 8. The committee on fire department of the City Council, with the approval of the chief engineer and subject to direction by the Council, shall purchase all supplies in connection with the department.

Article 1. They shall direct all repairs of the houses, fire alarm system, and fire apparatus.

Article 2. They in conjunction with the board of engineers shall hold meetings on the last Wednesday of each month.

Adopted December 5 and 19, 1910.

1. That the salary of the chief engineer be \$100 a year and 50 cents per hour for actual service at fires. It is understood under this arrangement that he shall not put in any time except for fires.

2. That the number of assistant engineers be reduced to two and that the salaries of each shall be \$30 per year and 50 cents per hour for actual service at fires. Also that two alternates from the regular force be appointed by the chief engineer on January 1, to serve in absence of the assistant engineer, at a proportionate salary.

3. That the clerk of the Board of Engineers shall receive a salary of \$15 per year for his services.

4. That the members of the various companies shall each receive a salary of \$20 per year and 50 cents for the first hour and 35 per hour thereafter for actual service at fires, except a brush fire when they shall receive 25 cents per hour.

5. That for fire practice or work at the engine house all members of the department shall receive 25 cents per hour in every instance.

6. That the engineer of the steamer shall receive \$1.00 per hour for actual service at fires, 50 cents per hour for practice and 35 cents per hour for cleaning and repairing.

7. That the superintendent of fire alarm shall attend to all repairs on the fire alarm system. Under this head it is understood that he shall at all times keep the line clear, and for any work in this connection, including the cutting of trees or branches, he shall not receive any extra compensation. It is further understood that in

instances that tappers are changed, it shall not be considered extra work except where new wiring is called for. That he shall attend to the winding of all the clocks and the tappers and he shall see to the procuring of supplies for the whole system, including the storage batteries at the Franklin Light & Power station, subject to the approval of the chief engineer and Fire Department Committee.

#### BOARD OF HEALTH.

*To the Honorable Mayor and Council:*

The Board of Health submit the following report for the year 1914:

The number of contagious diseases for which disinfecting was necessary, is not including tuberculosis, seven, a decided decrease from previous years. Of these cases the mortality is, one death from two cases of infantile paralysis. Five deaths were reported from Tuberculosis.

At the latter part of the year there was an epidemic of chicken pox of a very mild type. The number of cases could not be determined, being so mild that a physician was not employed. Six cases of typhoid fever were reported, with no deaths. The origin of these cases is obscure, but we feel sure they did not originate from the public water supply.

The total number of deaths during the year, excluding stillborns, is eighty-four. The number of bodies brought to the city from other places for which burial permits were issued, is thirty-three.

So far as we have been able we have compelled residents of the city to connect their buildings with the public sewer, thereby getting rid of privies, private sewers, sink spouts, etc.

Owing to the number of deaths from tuberculosis during the year we especially recommend that the law in regard to expectorating on sidewalks and public places be more rigidly enforced.

The clerical duties of the board have been promptly and efficiently executed.

In concluding this report we wish to extend our thanks to the Honorable Mayor and Council for their hearty support given us in the performance of our duties.

WILLIAM E. SMITH,  
HECTOR MORIN,  
IRVING V. GOSS,

Board of Health.

#### Expenditures.

### ODELL MEMORIAL ARCH FUND.

Vote passed April 7, 1913.

That, The City of Franklin hereby accepts the sum of two thousand dollars given to said city March 3, 1913, by Mrs. Herman J. Odell, same to be known as the "Odell Memorial Arch Fund," and said city hereby contracts and agrees with the said Mrs. Herman J. Odell, her heirs and assigns, to pay four per cent interest annually on said sum, said interest to be expended by duly authorized agents of said city for the following purposes only, to wit:

First. For the care and repair of the Odell Memorial Arch.

Second. For the lighting of said arch.

Third. Balance for the care of the Odell Park.

It is further voted that a copy of this vote of acceptance and contract shall be printed annually in the city reports.

Approved. W. W. EDWARDS, Mayor.

**MARY J. COLBY FUND.**

In the year of our Lord one thousand nine hundred and nineteen.

A Resolution relating to the Mary J. Colby Fund.

Resolved by the City Council of the City of Franklin, as follows:

Whereas, By the terms of the will of the late Mary J. Colby, the sum of ten thousand dollars has been given to the City of Franklin, N. H., in trust, the income to be used annually for the support of the poor of said city, and the principal to be known as the Mary J. Colby Fund.

Be it Resolved, That the City of Franklin, N. H., in accepting said trust fund hereby votes that same shall be deposited by the Treasurer of said city as follows, to wit: That the sum of five thousand dollars shall be deposited to the credit of the City of Franklin, in the Franklin Savings Bank of Franklin, N. H., and the sum of twenty-five hundred dollars shall be deposited to the credit of the City of Franklin in each of the following named banks, to wit: New Hampshire Savings Bank and Merrimack County Savings Bank, both of Concord, N. H., to be known as the Mary J. Colby Fund; and that the annual interest or dividends paid by said banks on said deposits shall be expended for the benefit of the poor of Franklin, N. H., by an agent who shall be elected by the City Council of said city of Franklin, for a term of one year, and that said agent shall annually make a return to said city of the names of the persons assisted and the amounts to each, but that said names shall not be included in the list of paupers, or published.

Approved.

W. W. EDWARDS, Mayor.

Passed September 8, 1913.

## REPORT OF MILK INSPECTOR.

---

To the Mayor and Council of the City of Franklin.

I herewith submit my report as milk inspector for the past six months of 1914. There have been made 73 barn and milk house inspections in Tilton, Franklin, West Salisbury and Salisbury, all of these towns furnishing part of Franklin's milk supply. There have been ten store inspections made, and all milk from these stores is bottled at the dairy and not at the store as has been the previous custom.

Three animals have been destroyed that had tuberculosis, two cows and one bull.

The cows owned by H. E. Webster, W. F. Duffy and John S. Shepard, Jr., have been Tuberculin tested and are free from tuberculosis.

The owners of all cows producing milk for this city have been seen several times and given instructions on cleaning up conditions and have complied with the same in the majority of cases. It was necessary in one instance however to revoke a license until conditions under which milk was produced had been changed and the place put in a sanitary condition.

There are a few more places where a second inspection is to be made and as soon as this has been done, a full report will be published in the Franklin Journal-Transcript giving the conditions and score of each inspection.

The milk inspector appreciates the co-operation of the Mayor and Council in this work, and also of the Board of Health who have given a good deal of time and advice in this matter.

A. L. EDMUNDS, Milk Inspector.

## CITY SOLICITOR'S REPORT.

---

To the Mayor and City Council:

During the year a claim was filed against the city for damages done by a dog in scaring a horse, which was being driven on Central street. This claim was disallowed, there appearing to be no liability on the part of the city.

In February, Lucy A. Rollins brought suit against the city to recover damages for personal injuries, which she claimed to have sustained on the 18th day of December, 1912, due, as she alleged, "to a defective and insufficient want of repair and lack of railing at a dangerous embankment on the East side of Franklin street, south of High street."

The case was tried by a jury at the October term of the Superior Court, who viewed the premises in question, being the sole judges as to whether the location and its condition constituted a dangerous embankment, which the city was bound to have provided with a railing.

On this question the jury found that there was a dangerous embankment and that the city was negligent in not providing a suitable railing.

The jury found a verdict for the plaintiff in the sum of six hundred and eighty-one dollars, which was exceedingly low in view of the liability on the part of the city.

Two notices of claims for damages have been served on the city, one in the sum of four hundred dollars for damage to automobile and the other for the sum of ten thousand dollars for personal injuries, it being claimed that the accident took place on the Hill road and due to the city's maintaining a dangerous embankment without providing a suitable railing for same.

As a result of the jury's findings in the Rollins case and the filling of these two claims, I suggest that the city make a careful examination of all its highways, erecting suitable railings at such points as seem to require them, so as to better protect the traveling public against injury.

No suits are now pending in which the city is a party.

Respectfully submitted,

THOMAS F. CLIFFORD,

City Solicitor.

## POLLS, VALUATION, AND TAXES ASSESSED.

The number of polls, and the taxes assessed on the real and personal estate in the city of Franklin since 1895:

Year	Polls	Valuation	Rate	Tax

## PARK COMMISSION.

---

*To the City Council of the City of Franklin:*

In presenting the subjoined financial report, the treasurer begs to submit a brief review of the work carried on under the direction of the Park Commission during the past year; together with some suggestions for future guidance.

### **Odell Park.**

For the care and upkeep of this now much-used park, the city appropriated \$500, and Mrs. Odell generously contributed \$504.25. The lagoon, completed last season, has furnished during the winter months, an ideal skating-rink for the young people. The problem of removal of snow from the two-acre ice-field has been somewhat complex, owing to the different factors injected by varying climatic conditions. In mild weather air-holes and fissures militate against the flooding of the area; in extremely cold weather any attempt to evenly saturate the snow blanket results in failure. The painstaking removal of the snow by scrapers and brooms has produced the most satisfactory results. Though the frequent repetition of this treatment is expensive, and sometimes discouraging, it is worth all it costs in the vast amount of safe skating enjoyed by hundreds of children from mid-November until the ice becomes honeycombed by soft weather, and the skating fever subsides. Though the uncongealing of the ice leaves behind no evidence of the winter work, the lasting benefits of the wholesome and invigorating pastime remain.

With the advent of spring, the caretaker, Mr. John S. Wilson, devoted his energies in pruning and cleaning out deadwood from the big trees throughout the park; in doing much regrading along the dyke, made necessary by the natural subsidence of the fills; in rip-rapping a long

stretch of river front with stone and cinders, in cleaning out bushes, grubbing, grading and filling in the area adjoining the lagoon. All this, though inconspicuous to the casual observer, represents work and a good deal of it.

All road-scrappings, mulch and earth available, were utilized to cover unsightly tin-cans and "culch" left by city garbage teams. In this connection the writer cannot refrain from expressing his regret that hundreds of loads of material have been annually carted away to the city dump, which might have been utilized in a more rapid development of this park, destined some day to be the pride of a fairer, finer, fitter Franklin.

#### Daniell Park.

In May, 5000 three-year-old transplants of white pine were purchased from the state forest nursery, and carefully set out on four acres of the upland, east of the old Atherton house. The frequent rains of the early summer were favorable to the growth of the young transplants. An inspection in midsummer showed 96% alive; in October, after the protracted drought, about 85% appeared to be thriving. The coming season, the Commission expect to continue reforestation by planting both white and Norway, or red pine, on the sandy uplands of the farm.

#### Webster Lake.

In March, a proposition made by Mr. James C. Nowell, relative to the cutting of a portion of the timber on the Webster Lake reserve, was referred by the City Council to the Park Commission. It was understood by the Commission that Mr. Nowell might be permitted to remove such lumber as the commission should designate, or point out. Before, however, the commission had an opportunity to carefully investigate and report, some of the matured white and red oak trees had been felled. Work of cutting was ordered discontinued, pending a visit to the tract by the State Forester, whose skilled judgment and advice as to the proper methods of deforesting this valuable tract, the commission will endeavor to follow.

In August, Mr. G. E. Clement, assistant in Forest Management of the U. S. Department of Agriculture (Bureau of Entomology) conferred with the commission,

relative to converting ten acres of the City's woods into a "more valuable moth resistant stand." This project seemed feasible to the commission and was approved by the City Council. In accordance therewith, work was begun in November, as is shown by the following communication from Mr. Clement:

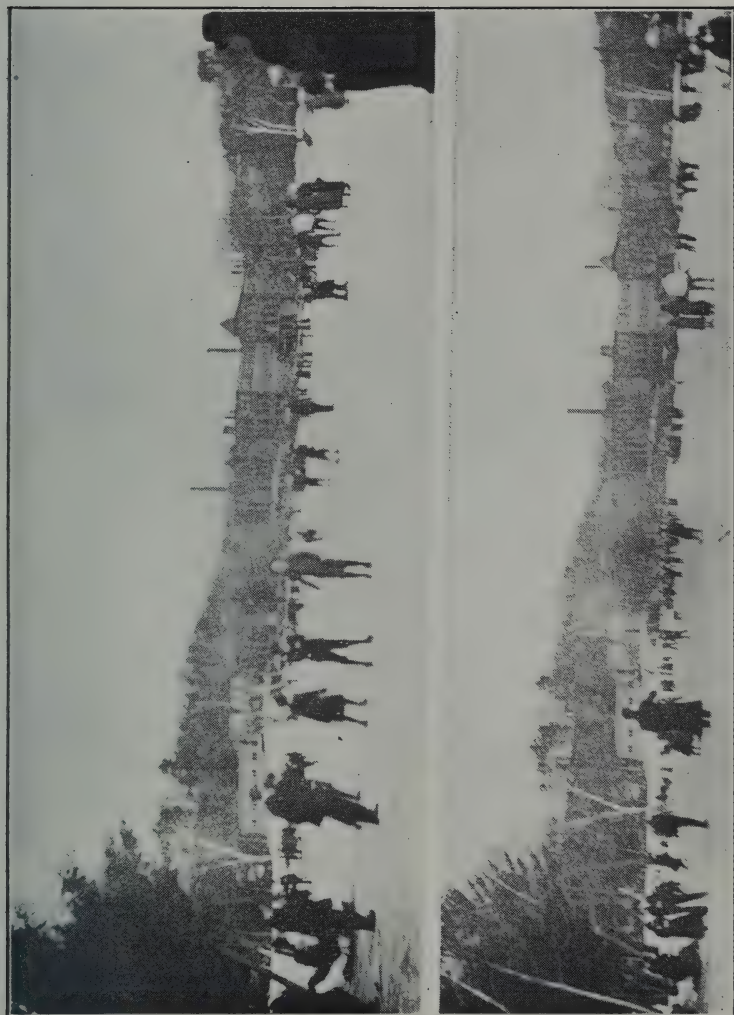

The Park Commission has arranged with the Federal Bureau of Entomology and the State Forester to conduct a cooperative experiment in forest management on ten acres of Webster Park. The area selected for this work is a rectangle about 400 feet wide and about 1000 feet long, with one of the short sides extending along the lake front between the Morin and Beaupre cottages.

The object of the experiment is to convert the existing stand of timber into one which shall have a greater commercial value and which shall be free from any serious damage by gipsy moths. Under the arrangement which has been made, the Bureau of Entomology is to cut all trees excepting the white pine, red pine, fir, spruce, white ash and sugar maple. The commission is then to pay for the nursery stock necessary to replace the trees cut, and to pay for the labor involved in planting this stock. The State Forester will doubtless be able to furnish the Commission with the needed stock at cost. The planting will be done under the direction of the Bureau of Entomology, and white pine and white ash will be largely used, with possibly some Norway spruce. If this combination of species is kept free from oaks and birches, there is little chance of any damage by gipsy moths. The Commission is to receive the products of the cutting to do with as it may see fit. The sale of this material should produce an amount much more than enough to pay the cost of the planting.

Cutting on the selected area began early in November and this part of the work is now well advanced. The following species, beginning with the most abundant and proceeding in order to the least abundant, are the ones removed; gray birch, red (white) maple, white oak, witch hazel, red oak, hop hornbeam (ironwood), shadbush, hemlock, black oak, alder, black birch, beech, quaking aspen (popple), paper birch, yellow birch, black cherry, hawthorne, moose maple, basswood, apple, white elm, and scarlet oak. For the growth of many of these species, the existing conditions are not favorable, and the combination has not, and never would have, any great commercial value. Furthermore, many of the species are particularly liable to gipsy moth attack and their presence serves as a breeding place for caterpillars which are likely to migrate onto more valuable species. The area is already infested by the gipsy moth, and it is only a matter of time before the infestation would become serious if not checked in some way.

A small portion of the area will be left as it was found in order to provide a means for comparing results where work has been done and where nothing has been done.

December 3, 1914.

---

The Commission have arranged with the Overseer of the Poor for the marketing of the cordwood harvested on the Webster Lake tract, at a price which will reimburse the city for all expenses of operating (cutting, teaming, sawing, etc.,) and show a fair profit to the city.

The Commission have not received payment for the poplar, about 70 cords, cut from this tract by Mr. Nowell.

Respectfully submitted,

FRANK PROCTOR,

Treasurer.

## CEMETERY TRUST FUND.

The following funds have been placed in the care of the city in trust, the income to be expended in the care of various lots in cemeteries within the city agreeable to Chapter 51 of the Public Statutes, and a resolution of the city council adopted September 3, 1900.

All customers are supplied through meters. The minimum charge is six dollars per year, which entitles the consumer to 2,000 cubic feet during the year. Rentals are collected quarterly. For the first 1,000 feet or less in each quarter the charge is 30 cents per 100; for the excess over 1,000 feet used each quarter, 20 cents per hundred feet is charged.

Upon all quarterly bills exceeding \$12.50, a discount of 25 per cent of the excess over \$12.50 is made.

No charge is made for private hydrants or for automatic sprinkler service.

Franklin, N. H., December 31, 1914.

GEORGE D. MOWE,

Commissioners.

## FRANKLIN PUBLIC LIBRARY

---

*To the Mayor and Members of the City Council:*

In behalf of the Board of Trustees of the Public Library, I submit herewith, the reports of the Treasurer and Librarian for the past year.

I wish to call your attention and the attention of all our citizens to the immediate need of making some sort of a replenishment of our book fund which has now nearly been exhausted. This will be essential for properly keeping the library up to its efficiency.

The bequests that have already been made for this purpose are greatly appreciated and though the total amount at the present is small, the revenues furnished in this way are a great help at this time and it is hoped that further donations along this line will be made.

The Librarian's report shows that an increasing service is rendered in our city by our Public Library each year and that its benefits well repay all the support that is given the institution.

W. F. DUFFY, *Chairman Board of Trustees*

---

*To the Trustees of the Franklin Free Public Library:*

I hand you herewith, my report as treasurer for the year ending December 31, 1914. You will note an apparent unexpended balance for the year of \$155.09. Outstanding bills, including new shelves and stacks, will fully offset this amount. Our book fund is dwindling year by year, and before long it will become necessary to provide an adequate yearly amount for this purpose. Through endowment or otherwise, the library should have a fixed and permanent income of not less than \$500 per annum for this purpose alone.

Maintenance Account.....	\$1,918 55

Harriet Sanborn Jones fund.....	100 00

Respectfully submitted,

W. F. DANIELL.

---

*To the Trustees of the Franklin Public Library:*

The year 1914 was a very active one at the library, the circulation was larger than ever before, doubtless on account of business depression during the war, and the opportunity that the Pay Collection has given to obtain the newest fiction at a small price.

This scheme for raising money for new books was suggested by a member of the board, and put into practice in February. The sum of twenty-five dollars was given by a person much interested in the library, and the books were covered and given a special date slip and pocket to distinguish them from the books for free circulation. Only adult fiction, and that of the newest publications have been circulated in this way and the treasurer's report contains an accurate statement of the sum received through this means.

After the books have been paid for, they are placed among the free books and are in reach of all. In this way, the people who read the books are the ones to pay for them, and the small supply of money arising from the interest on funds belonging to the library endowment, can be expended on books of a more permanent value than the general run of the fiction of the day.

The number of cards in use January 1 was 1049. The number of persons registering during the year was 948.

The total number of volumes added during the year was 595; of these 175 was by gift exclusive from those acquired through the Pay Collection, and the rest were purchased. Two valuable sets of books relating to the Civil War were given by Dr. Keith of San Jose, a former resident, Mr. Henry Rainville of Franklin, gave the Catholic Encyclopaedia, many books belonging to Dr. Staples, a former trustee, were given by Mrs. Staples; while many single volumes were contributed by generous citizens.

The Reading rooms have formed a very welcome place for the large number of people who are out of employment, and for the young people who require periodicals to supplement their school books.

# STATE FORESTER'S REPORT.

---

Report of the State Forester to the City of Franklin Park Commission, concerning the forest conditions on the city property at Webster Lake, with recommendations for improvement and management:

At the request of the Park Commission of the city of Franklin for an examination of the city property at Webster Lake, several inspections were made, the last one on January 16. The purpose of the inspections was to determine the best method of managing the timber growth on the property from the standpoint of maintaining a public park. It is the desire of the Park Commission to remove such growth as would be consistent with this policy, thus placing the forest in the best condition of growth, and at the same time yielding a substantial revenue. Following is the report of the State Forester:

---

## FOREST CONDITIONS.

### Area and Growth.

The tract in question is supposed to contain approximately 155 acres on the east side of Webster Lake, and supports a growth consisting chiefly of hardwoods: oak, birch, beech and maple, with some pine and hemlock in mixture. This latter occurs mainly on the north half of the tract.

The quality of timber varies with the condition of the soil, which is best on the low land adjacent to the lake, and thin and poor on the ledges along the higher land to the east.

### Oak.

There is considerable amount of ripe red and white oak throughout this forest. Many of these are large, limby and growing slowly. The branches spread out widely, overtopping and crowding other trees, and shading out the young growth beneath, which forms the basis for the future stand of timber. Moreover these old hardwood trees furnish ideal breeding places for moths. All such trees are not only detrimental to the others, but represent a losing investment themselves, and should be removed. On the south part of the tract the oak is in a more thrifty condition, and only such trees should be removed as have been previously designated by marking.

### White Pine.

There is also some good white pine on the tract which should be preserved. The younger trees should not be cut. In certain cases where the large, old trees occur in groups, one here and there may well be taken out, for the benefit of others, at the same time not sacrificing the aesthetic feature. In cutting these larger trees, great care must be taken, so as not to injure the young growth, and only such trees should be cut as have been marked.

### Small Hardwoods.

A large proportion of the tract sustains a growth of mixed hardwood sprouts. The trees are making poor growth, are badly subject to moth attack, and should be thinned and underplanted with pine as soon as practicable.

---

## RECOMMENDATIONS FOR IMPROVEMENT.

It is recommended:

1. That the large oak and a few of the ripe white pine be sold on the stump. Scaling should be done by a thoroughly reliable person, and if desirable should be check-scaled.
2. That the trees to be cut be marked by a representative of this department, and the cutting inspected from

time to time, to see that the work is being done in accordance with the wishes of the Park Commission.

3. That the tops and branches be converted into cord wood and sold.

4. That the resulting brush and inflammable material burned before the snow is melted.

5. That the whole remaining forest be thinned gradually, a little being done each year, and the product sold for cordwood.

6. That the openings in the forest which will result from such operations be planted to white pine, red pine, Scotch pine, or white ash, according to the varying soil conditions.

The Forestry department will be glad to cooperate with the Park Commission in the future management of the tract, and the Commission should feel free to call upon the State Forester for advice at any time.

Respectfully submitted,

E. C. HIRST, State Forester.

Concord, N. H., January 19, 1915.

## BOARD OF EDUCATION.

---

### *To the Citizens of Franklin:*

The aim of the Board of Education is to provide for the children of Franklin an education which shall fit them for the duties of citizenship and the work of life. This task involves suitable buildings and equipment, capable and efficient teachers and superintendence and a general oversight so that the work may be faithfully done. This is to be done under state laws and regulations over which the local authorities have no control. It is the aim of the Board to keep the schools of the city up to the standard of the best schools elsewhere and in pursuit of this purpose, from time to time new equipment and new departments must be furnished. There have been added thus to our schools during the past two years, a manual training department which has been extended and enlarged during the present year. This new feature of school work had been urged upon us for several years by the state authorities as a necessary part of every well-equipped modern school. Franklin was somewhat late in adopting this modern tool of school efficiency, but she has reaped the benefit of others' experiments. This new department has proved of great value in training hand and eye and giving boys a valuable command of tools. It has also stimulated the energies of the boys in other studies and kept some in school who otherwise would have dropped out and lost some years of valuable training. This department has fully justified itself as a needed part of our school work.

To give to girls an equal training and equipment for work, a department of Domestic Science was last fall installed. This too under a skillful teacher has proved as great a success. Both these new departments have been highly commended by the state authorities.

Another valuable new feature has been the appointment of a school physician. That children may not be unnecessarily hindered in their education by sickness, constant care must be taken to discover physical defects or illness in the first stages and apply remedies, hence a yearly examination by a skilled physician and reports to parents have been provided.

Another new and valuable feature of school work has been the introduction of a summer term for those who for any reason have been unable to complete the year's work in the regular term, or who wish to go ahead more rapidly. This summer term has enabled a considerable number to save a year in their school course and at the same time save the city a year's expense. It also has a wholesome effect in keeping some in school who might be discouraged by failure and drop out altogether.

At the urgent suggestion of the state authorities, the high school has been put under the supervision of the superintendent, making the whole system a single unit instead of two separate departments.

Under the advice and oversight of the school physician, sanitary conditions have been improved.

It is planned to present to the City Council a proposition for a new department of commercial training in the high school, that boys and girls may receive here a training which will fit them for positions in business houses. There is a growing demand for such a department, and if the money is voted, it will be established.

A new feature for the coming year will be a shortening of the high school course from five to four years. This will mean more work, but it will enable all the better students to save a year's time. This change has been strongly advised by the state commissioners and is in line with advanced work elsewhere.

Nearly all these changes involve additional expense, but if the city gets better equipped boys and girls, it means better citizens and better earning power and better means of paying expenses. We cannot afford to equip Franklin children with an education second to that of other cities and towns of the state.

Many of our citizens have been so impressed with the value of the new work being done that they have added generously to the means voted by the city for the estab-

lishment of the new departments of the schools. These departments are equipped beyond the average of such schools, because generous Franklin citizens saw to it that nothing was lacking. The thanks of the Board are extended to all who helped.

The schools belong in a very intimate way to the whole city and the thought of all is needed for the highest success. The Board of Education earnestly invites the cooperation of every citizen in making the schools continually better in management, teaching and general efficiency. Criticism by those who never enter a school room, or examine conditions is always beside the mark but whoever has an idea upon school work, school management, school supervision or teaching will be given a respectful hearing by the board whose only wish is to make our schools turn out the highest product. The monthly meeting of the school board is at the office in the high school building at 3.30 p. m., the first Monday of each month, when any citizen of Franklin is welcome for any conference with the members upon any matter concerning the schools.

The department of Public Instruction puts out this vital sentence in its instructions to school boards: "There should be but one answer made by the school board member to the complaining citizen; 'Put you complaint in writing, sign your name to it, our board will give you a hearing and if you substantiate your charges appropriate action will be taken.'"

Franklin Board of Education.

FRANK PROCTOR,

Treasurer.

## SUPERINTENDENT'S REPORT.

*To the Board of Education:*

Madam and Gentlemen: During the past year the work of the office has included, in addition to the regular duties, those of school finances; the oversight of the medical inspection; the improvement of the sanitary conditions of the buildings; the extension of the manual training department; the establishment of the domestic science department; the introduction of the summer schools; and checking up of the school census and attendance records and getting correct data. Of the regular duties, special attention has been given to the enforcement of school attendance; the improvement of school discipline; and the raising of the standards of school work by definiteness of plans, thoroughness of preparation and thoughtful recitations.

The call for this report at a much earlier date than the one last year will not permit me to discuss each subject mentioned above as I had planned to do. Some of these subjects have been treated by others. Their reports will be found on following pages, and I solicit a careful reading of them.

### Financial.

Believing that we and the public should know in detail what the money raised for school purposes is spent for, and be able to tell in which direction we are going in any line of expenditure, I have adopted a form of school accounting that will give this information. The system may seem at first to be unnecessarily extended, but I believe that its value will become apparent as its use is continued.

The first part of the financial report is similar to those of preceding years. Following that is the detailed statement. Comments are made where it is thought they may help to interpret the information given.

### Receipts.

	1914	1913
Balance from preceding year	\$ 8 44	\$ 190 94
Appropriation . . . . .	27,750 00	22,300 00
Literary fund . . . . .	531 30	539 58
Dog licenses . . . . .	549 97	459 82

Tuition . . . . .	139 50	325 59
Gifts . . . . .	410 00	
Refunds . . . . .	207 88	
Miscellaneous . . . . .	45 76	
	<hr/>	<hr/>
	\$29,642 85	\$23,815 93

In addition to the amount given above as having been received by gifts, \$235 were received and expended for equipment for the manual training department.

In the domestic science department, \$63.33 were received for sales and used for the purchase of materials.

The refunds include errors in payments, and a return on an unexpired insurance policy.

The miscellaneous receipts were for sales, damages, etc.

#### Disbursements.

	1914	1913
Salaries . . . . .	\$17,147 15	\$15,644 14
Books and supplies . . . . .	1,744 17	1,199 27
Fuel . . . . .	1,994 15	1,955 20
Care and cleaning . . . . .	1,316 20	1,123 99
Transportation . . . . .	1,978 67	1,627 31
Outlay, equipment and repairs	3,323 82	1,365 18
Insurance . . . . .	424 00	
Medical inspection . . . . .	230 00	
Truant officer . . . . .	200 00	200 00
Incidentals . . . . .	1,238 62	692 40
Balance on hand . . . . .	46 07	8 44
	<hr/>	<hr/>
	\$29,642 85	\$23,815 93

The excess of salaries over last year's is because of the summer schools; to increases given to some; and to the two additional teachers for the departments of manual training and domestic science. Much of the excess for books and supplies came from purchases of the preceding year. The excess in care and cleaning is because of increased salaries paid janitors, and for additional cleaning. The increase for transportation is due to the closing of the Shaw Corner school. The outlay and equipment were mostly for the manual training and domestic science departments, our new office and supply room, and the new recitation room provided for the high school.

Of the excess for incidentals a considerable amount was for bills outstanding at the beginning of the year, and \$207.88 were refunded, leaving the net amount little in excess of the usual.

During the year, bills that were outstanding January 1, 1914, amounting to \$1099.61 have been paid. January 1, 1915 we had outstanding bills amounting to \$766.05. Of these one of \$157.64 was for furniture required by the increased number of pupils in the high school. This increase in the membership of the high school called for many additional books. Again, the larger attendance than was anticipated, at the summer schools, made the cost of maintaining them more than was appropriated.

It will be seen from what is stated above that had we not had the outstanding bills of other years to pay we should have had a net balance of \$379.63 on hand at the end of 1914.

While the total disbursements of the department for the year exceed those of the preceding year by \$5826.92, a thorough examination of the expenses, and due consideration of what has been done justify the outlay. As in business so in the management of schools, it is not so much a question of cost as of returns.

### ANALYSIS OF DISBURSEMENTS.

#### Expenses of General Control.

Board of Education, Superintendent of Schools and Enforcement of Law:

Superintendent, salary . . . . .	\$1,426 00	
Truant officer, salary . . . . .	200 00	
Telephone service . . . . .	74 46	
Office expenses . . . . .	80 92	
Traveling expenses . . . . .	40 96	
School census . . . . .	25 00	
	<hr/>	\$1,847 34

#### Expenses of Instruction.

1. Supervisors, salaries . . . . .	\$673 92	
2. Teachers: High school, salaries . . . . .	\$6,595 78	
Elementary schools, salaries . . . . .	8,451 48	15,047 26
3. Text books: High school . . . . .	617 56	
Elementary schools . . . . .	272 91	890 47
4. Supplies: High school . . . . .	295 56	
Elementary schools . . . . .	558 14	853 70
	<hr/>	\$17,465 35

**Expenses of Operating School Plants.**

1. Janitors, salaries, high school	\$370 27	
Elementary schools . . . . .	945 93	\$1,316 20
2. Fuel, high school . . . . .	700 00	
Elementary schools . . . . .	1,294 15	1,994 15
3. Miscellaneous, light, janitors' supplies, etc. . . . .		
High school . . . . .	140 49	
Elementary schools . . . . .	260 94	401 43
		<hr/>
		\$3,711 78

At the High school and Hancock buildings the cost of janitor's services, heating and miscellaneous expenses have been divided equally.

**Expenses of Maintaining School Plant.****Repairs and Replacement of Equipment.**

High school . . . . .	\$185 23	
Elementary schools . . . . .	821 32	
	<hr/>	\$1,006 55

**Expenses of Auxiliary Agencies.**

Health, medical inspection . . . . .	\$232 60	
Transportation . . . . .	1,978 67	
	<hr/>	\$2,211 27

**Miscellaneous Expenses.**

Tuition . . . . .	\$26 00	
Insurance . . . . .	424 00	
Printing and Advertising, sundries	363 53	
	<hr/>	\$813 53

**Outlays.**

Alterations and improvements ...	\$1,383 45	
New equipment . . . . .	933 82	
	<hr/>	\$2,317 27

**Other Payments.**

Miscellaneous and non-expense items, refunds . . . . .	\$207 88	
Purchases for others, etc. . . . .	15 84	
	<hr/>	\$223 72

---

**COST OF INSTRUCTION.**
**High School.**

Supervisors, estimated at . . . . .	\$100 00
Teachers . . . . .	6,595 78
Text books . . . . .	617 56
Supplies . . . . .	295 56

Total . . . . .	\$7,608 90
Average membership . . . . .	185
Average cost per pupil . . . . .	\$41 13

**Elementary Schools.**

Supervisors, estimated at . . . . .	\$573 92
Teachers . . . . .	8,451 48
Text books . . . . .	272 91
Supplies . . . . .	558 14

Total . . . . .	\$9,856 45
Average membership . . . . .	551
Average cost per pupil . . . . .	\$17 89

Total disbursements for the year . . . . .	\$29,642 85
Less outlay and non-expense . . . . .	2,540 99

Current expenses for the year . . . . .	\$27,101 86
Average membership . . . . .	736.6
Average cost per pupil for current expenses..	\$36 94

**Comparative Cost Per Pupil for Different Schooling  
Items (For the School Year, 1913-1914.)**

	Teachers' Salary.	Superinten- dent.	Books and Supplies.	Janitor Service.	Fuel, Light and Water.	Transporta- tion.	Total Current Expendi- tures.
Manchester,	\$23.81	\$.49	\$1.66	\$2.21	\$3.31	\$.22	\$35.49
Concord,	27.53	.86	1.24	2.58	2.69	.19	39.24
Nashua,	23.19	.75	2.54	3.19	2.85	.22	37.00
Portsmouth,	20.45	1.10	1.17	1.95	.61	..	28.98
Keene,	15.22	.74	1.25	1.65	1.96	.40	28.54
Dover,	24.93	1.61	1.76	2.51	2.37	1.59	38.03
Laconia,	19.43	1.67	1.64	1.63	1.49	.68	27.78
Rochester,	14.99	1.05	1.08	1.88	1.12	3.54	25.60
Berlin,	19.63	2.15	1.11	2.07	1.76	.89	30.73
Franklin,	19.34	1.88	1.62	1.52	2.67	2.20	31.42
Somersworth,	24.76	2.09	2.30	3.22	2.73	1.10	38.10
Claremont,	14.21	1.12	1.29	1.39	1.93	3.32	25.96
Averages,	\$20.62	\$1.29	\$1.55	\$2.15	\$2.12	\$1.30	\$32.24

The figures given above are helpful in giving general information. They do not, however, show relative conditions in all cases. Conditions vary in different places. Whether teachers have large or small numbers of pupils affects the rate of their salary per pupil. The number of pupils under the superintendent's care makes a difference as to the rate per pupil of his salary. A good example of the difference caused by local conditions is in the comparative cost of our janitor service with that of the other place given. The reason why ours is so low is because by getting our heat for the High and Hancock buildings from the central heating plant we require one janitor where two would be required if we had our own heating plants. On the other hand, our expense for fuel is comparatively high because we get our heat without the expense of maintaining heating plants in these buildings.

**Payments for Different Items of Service (For the School  
Year, 1913-1914.)**

	Average Wages of Women Teachers.	Superintendent of Schools.
Manchester . . . . .	\$65 66	\$3,000 00
Concord . . . . .	65 67	2,300 00

---

Nashua . . . . .	66 66	2,200 00
Portsmouth . . . . .	63 62	2,079 92

Somersworth . . . . .	50 00	1,200 00
Claremont . . . . .	50 00	1,170 00

---

The superintendents of Franklin, Somersworth and Claremont get additional salary from other places. For the present year the salary of these superintendents is as follows:

Franklin and Hill . . . . .	\$1,700 00
Somersworth and Newmarket . . . . .	2,000 00
Claremont and Charlestown . . . . .	2,000 00

---

### The Manual Training Department.

Much credit is due Mr. Rogers for the extension of this department. His ambition, enthusiasm and energy led him to find a place for the work and to secure the means for fitting it up and equipping it. Few realize the amount of time and toil he has spent in building this part of our school system. He has yet other plans that are worthy of consideration. I commend his report to your reading.

### Expenses of Manual Training Department.

Outlay and improvements . . . . .	\$518 39
Equipment . . . . .	613 42
Salaries . . . . .	1,114 22
Supplies . . . . .	184 02
Sundries . . . . .	5 88
	<hr/>
	\$2,435 93

### The Domestic Science Department.

This department for girls was opened last September. It is the complement of the manual training for the boys.

The liberal appropriation of the city council, supplemented by generous gifts by interested citizens enabled us to make a good beginning in fitting up a room for the work. The location, size and arrangements of the room are all that can be desired. What equipment we have is good. There are other needs that should be supplied as soon as means can be had.

Miss Lois A. Leavitt, a graduate of Boston University and of the Boston School of Domestic Science is in charge of the work of this department. Miss Leavitt is well qualified for the position. With zeal, skill and hard work she has already made the course popular and profitable.

A good idea of the practical nature of the work that is being done by the girls may be gained by reading Miss Leavitt's report.

There can be no question of the value to the girls of the experience and knowledge they are getting. They are not only learning how to cook well, but what to cook to make a well balanced meal, and the care of a kitchen. Later they will learn how to serve food. The allied subjects of household management, including the buying of foods, account keeping, household sanitation, first aid to the injured and nursing should be added to the course. The work in sewing should also be extended. We should build up a regular domestic arts course in our high school.

### Expenses of the Domestic Science Department (Including Sewing.)

	\$917 56

### SUMMER SCHOOL.

In my report last year I recommended the establishment of a summer school for those pupils in our grades who failed of satisfactory promotion, or who wished to do additional work. It also seemed that it would be a good thing to give the boys an opportunity to use the manual training room under instruction. The voting of \$300 by the city council for these purposes enabled us to announce that these schools would be maintained if enough pupils cared to take advantage of them. It was thought that 100 would do this, but there were over 150 applications. This number made it necessary to open more schools than had been planned, and consequently the appropriation was inadequate.

The success of these schools seems to have been generally recognized. Parents, pupils and teachers expressed themselves as well pleased with the results.

There was an enrollment of 150 with an average attendance of 127.7, and a percentage of attendance of 92.4.

Number of pupils who attended every session (30) ..	50
Number who attended between 20 and 30 sessions ..	75
Number who attended between 10 and 20 sessions ..	18
Number who attended between 1 and 10 sessions ..	7

Total	\$361 41

#### ATTENDANCE.

The attention that has been given to school attendance has been done from a sense of duty and a respect for laws. Absences, tardinesses and dismissals lower the results obtainable in schools. Hence it is right that they should not be permitted except in cases of necessity, and any reasonable means to prevent them is justifiable.

Attention is respectfully called to the following law of the state, and to regulations of the board of education.

STATE OF NEW HAMPSHIRE  
DEPARTMENT OF PUBLIC INSTRUCTION.

---

Attendance and Child Labor.

---

Chapter 93 of the Public Statutes, as amended by Laws of 1901, 1903, 1911, 1913.

Attendance of Children at School.

Section 14. Every person having the custody and control of a child between the ages of eight and fourteen years, or of a child under the age of sixteen years, unless such child shall have completed the course of study prescribed for the elementary school, residing in a school district in which a public school is annually taught, shall cause such child to attend the public school all the time such school is in session, unless the child shall be excused by the school board of the district because his physical mental condition is such as to prevent his attendance at school for the period required, or because he was instructed in the English language in a private school approved by the school board for a number of weeks equal to that in which the public school was in session in the common English branches, or, having acquired those branches, in other more advanced studies. Any person who does not comply with the requirements of this section shall be fined ten dollars for the first offense and twenty dollars for every subsequent offense, for the use of the district.

The attention of parents and guardians is called to the following regulations governing the attendance of children at school:

---

Franklin, N. H., May 23, 1910.

1. By vote of the Board of Education of the City of Franklin the teachers are instructed to require a written excuse signed by the parent or guardian from every child who has been absent from school or tardy at any session.
2. The Public Statutes of New Hampshire state that only the school board of a district can excuse a child

from school in case of sickness, if such excuse is deemed necessary. A physician's written statement to the effect that a child is not able to attend school does not excuse the child from school. The school board may or may not accept this evidence as conclusive and may use its own discretion in granting the excuse.

3. The Board of Education require that every child who has been absent from school on account of mumps, measles, scarlet fever, diphtheria or any other contagious disease, shall, on return to school, present to the teacher a physician's written statement to the effect that the child has fully recovered from his sickness and can safely attend school.

4. Extract from the ordinances of the City of Franklin :

"Be it ordained by the City Council of the City of Franklin as follows :

Section 1. Any child in the city between the ages of six and sixteen years, without a regular and lawful occupation, who shall, except in cases of ill health, be absent from school more than one day during the space of any one month, unless excused by the teacher of the child, shall be fined not exceeding ten dollars for each offense.

Section 2. This ordinance shall take effect on its passage."

The Board of Education, superintendent and teachers wish it understood that they desire to serve the interests of the city without appeal to laws and regulations, although in extreme cases this may be necessary. There is no influence so helpful to the welfare of the school as the willing co-operation of the home, and this co-operation the school officials heartily desire.

### School Needs.

The first consideration should be the safety of the children. At the Nesmith building the doors should open outward, especially the outside doors. There should also be a fire escape from the second floor of this building.

The second consideration should be the health of the children. Our school physician has called our attention to several things that need to be done to make the school buildings places where the children may work without serious impairment of their health. Some of these needs have been supplied. Others await means. The most urgent of these are the ventilation at the Nesmith and Morrison buildings; the supplying of moisture to the air; and the replacement of the old ill-fitting desks and chairs by new adjustable ones.

A new floor is needed on the third story of the high school building. The outside woodwork of this building needs repairing and painting.

The same need of the addition to the Hancock building exists that was mentioned last year. One of the schools in that building and two of the Falls schools are crowded. These conditions call for relief. Accommodations for the domestic science department took one of the rooms formerly used as a high school class room. To take the place of this room one was partitioned off from the hall on the third floor. While this room is usable it is not satisfactory. If a commercial course is added to the high school program of studies, another room will be required. The work of the high school and that of the grades could be carried on more efficiently if the pupils were in separate buildings.

### Conclusion.

My thanks are returned to you for the support you have given me; to the mayor and members of the city council for the liberal appropriations made the department; to the donors of the gifts that were so acceptable; to the teachers for their faithful work; and to all citizens who in any way have helped me in my efforts to make the schools of Franklin better places for the children as regards their health, their happiness, and their education.

Respectfully submitted,

WILLIAM L. COGGINS.

## HIGH SCHOOL REPORT.

*Mr. W. L. Coggins, Superintendent of Schools:*

### Domestic Science.

The most interesting subject at this time of writing relates to the new course in domestic science. This has been a course in cooking for four divisions of girls. They have been interested and have enjoyed the work. One division has worked each day a period after school rather than not take the study.

The work has been the same for all the pupils although some are a year farther advanced in school than the others. This has been necessary because the work has been new to all alike.

This suggests a few comments, with reference to the future. In my judgment it does not pay to have a course in cooking begin in the high school unless the course is to be extended considerably over one year and includes other subjects than cooking. The reason for this is that the pupils are too old merely to cook from directions or from receipts, when this work is considered as a high school study. Such cooking can be done with greater profit by pupils considerably farther down in the grades, because following rules and directions is for them a difficult matter and consequently of decided mental value.

Accordingly, my recommendation would be that the course either be started in the grades, or, if started in the high school, that a course in domestic economy, which would include more than cooking, be pursued in the high school for several years.

In saying this, it is to be understood that I am making no criticism of the work done this year. The high school pupils had to start as they have. My suggestion relates to the educational principle that a study is more valuable if introduced at the age when the pupil will get the most good from it; and if it is conducted in a manner suited to the stage of their mental development.

### Manual Training.

This is the second year of this work with special instruction. This was begun last year in the grades as well as in the high school. This is a satisfactory ar-

rangement. The boys learn the use of tools at a time when the mere working with them is an education in itself. Then, when they come to the high school, they are ready for work better suited to their age, and they have had a chance to find out in the grades whether it will be better for them to continue such work in the high school.

Manual training in our high school is now taken by boys in three different classes. The first two classes take it ten periods a week and the third class has it four periods a week.

In connection with this manual training, systematic instruction is given in mechanical drawing.

The object of all this mechanical work is not to produce expert workmen, but to lay a foundation for an understanding of industrial activities, and for a successful pursuit in higher lines, if the boys find it advisable to continue such work for their occupation in life.

### Artistic Drawing.

As we have not had a regular drawing teacher, we have been obliged to drop the optional courses in painting and advanced free-hand drawing. Along with our manual and domestic courses it seems to me necessary to have a supervisor of drawing for both the grades and the high school. It is very easy to overlook the value of artistic teaching in the schools especially when there is a tendency, as at present, to emphasize the studies that lead to business. Artistic sense and execution cannot well be developed in others unless a well-trained person directs the entire work. Only those teachers who are naturally adapted to artistic work and have had special training are qualified to develop the taste for the beautiful which is the object, in part, of every school course. From the financial point of view, all that one needs to do to realize how much intelligent business men value artistic conception and execution is to examine the advertisements in the current magazines.

### Other Studies.

While we think about and plan for the new studies we must not forget the more familiar ones. I should be glad to see a strengthening of several departments.

We are running along very economically in the laboratory, but could use to advantage some additional equipment for physics and chemistry. We are not teaching now zoology, botany, and physiology, as the time formerly put upon them is devoted to domestic science and manual training. I hope that some of these sciences will be taught again.

The department of history would be improved by the expenditure of money for reference works, and for preparing a room especially for the teaching of history.

The chorus singing has improved satisfactorily. The girls' glee club and the orchestra are continued with increased interest. It would be well to have some music bought every year even though the books on hand are still serviceable.

### Athletic and Social Interests.

The athletic and social life of the school is in a healthy condition. The school is not carried away by these interests, but they are important and considerable. We have football and baseball. Some play tennis. Basketball has not been maintained as strongly as formerly owing to the fact that there are now city teams. Ice hockey has recently been introduced and it is to be hoped that it will prove attractive, as it is a fine outdoor game for winter.

The classes are organized in parliamentary fashion. They have their parties and social activities, one of the most interesting of which is taking trips to attractive scenic places. A considerable number of the girls are in the camp fire organization.

The teachers are interested in these matters and are willing to give their time in friendly supervision. We have no secret organizations and there does not seem to be any tendency to secrecy.

I consider that much is gained from the relations of the pupils with each other that is of more value in after life than a good deal of their studies. High school pupils should be treated as young men and women, and should be given freedom enough to develop the ability to work with and get along successfully with others.

### The Proposed Change.

Now that it is planned to drop a year from the course from the first grade to the end of the high school, it seems a good time to speak concerning what we now have and the possibilities of change.

Now we have thirteen years, not counting the kindergarten. These years are divided into two sections, eight for the grades and five for the high school. There have been some decided advantages in this. Each pupil has done more work in the high school and the pupils have not been pushed so hard as they would have been in a division allowing only four years for the high school. It has been possible to make the first two years of the high school comparatively easy, so that the adjustment from the grades to the new studies might not cause too many failures.

Since this arrangement was started here ten years ago, there has come into practice what is known as a Junior High School. This is a plan whereby there are two or three years between the elementary school and the high school. In some places this intermediate school is in a different building from the high school; in some cases it is in the same building. We are very close to having such an arrangement in Franklin now; the last three years of our high school have been much harder than the first two.

If I were to express my judgment, I should say that it seems to me that the best plan would be to raise the standard of the grades until pupils could be admitted from the seventh grade, and allow, as now, five years for the high school with a still greater distinction between the first two and the last three years. This is somewhat like the practice in Concord.

There are some difficulties in this, however. One is that the common arrangement is different; this makes it necessary to plan the school with very few other schools for models. Some teachers succeed well in teaching the older high school pupils, while they do not understand the younger minds as well. The high school would be larger and the accommodations might be strained.

Another arrangement is still more common. This is to have eight years in the grades and four in the high school, but to introduce some high school studies in the

grades. The disadvantage here is that these studies are better taught by those who are trained to teach them. This can be remedied, though by having teachers from the high school give instruction in the grade rooms.

Of course a good many school systems have nine grades and the four year high school. A great many considerations enter into the whole problem. But the grading ought to be such that the pupils are able to move forward continuously.

If we have eight years in the grades and four in the high school, it will be necessary for a considerable number of pupils to enter with maturer minds than has been the case with the five year high school. This increase in maturity of mind ought to come from improvement in their mental training rather than from putting the pupils back in the grades.

#### Preparation for the High School.

The time when a child is ready for secondary instruction depends upon certain mental qualifications, due partly to age and partly to training. They should have a rapid command of the fundamental processes requisite for higher studies. These are an ability to use books rapidly and intelligently; a command of the logical processes of thought sufficient to enable them to think out elementary mathematical problems, and to understand the constructions of language, native and foreign. They should, also, have independence in working without the direct supervision of the teacher; and, finally, they should have a constant purpose to try to succeed in the school tasks assigned them by their teachers.

Respectfully submitted,

HARRY PREBLE SWETT.

## MANUAL TRAINING REPORT FOR 1914.

*Mr. W. L. Coggins, Superintendent of Schools:*

My second annual report is herewith respectfully submitted:

The work of the manual training department, for the past year, has advanced at a rapid pace. There are two main reasons for this progress; namely: the generous public bequests, together with the bountiful appropriation from the city council, and the omnipresent interest of the boys connected with the department. With money realized from these gifts and the appropriation, two new courses have been established, one being a regular wood turning course and the other elementary pattern making. The northeast basement room was selected for the new department, and put into shape by the boys. A hemlock floor was first laid, over which was placed one of maple. The rough stone walls were covered with hard pine sheathing, three new windows were cut in and an entrance was made from out-of-doors. The equipment for this new room consists of eight Wells' under-driven turning lathes, one medium sized combination planer, one circular bench saw, one hand saw and a 10 horse power electric motor. In the installation of this machinery, no outside help was engaged as the boys were always ready to render mechanical services. The machinery has been inspected by the Board of Education, Dr. Drake and the State Superintendent of Manual Training, and pronounced practically fool-proof and safe, for the classes which use it.

At this point, I wish to express my appreciation and thanks to both the donors of bequests and to the city council, for their financial help in furthering our manual training work.

I take great pleasure in recording the following list of cash donors:

Mrs. Lucie H. Odell  
Mrs. Arabella Kenrick  
Miss Mary A. Proctor  
Mr. Warren F. Daniell  
Mr. Murray Hancock

MANUAL TRAINING DEPARTMENT.

Mr. George Hancock  
 Sulloway Mills  
 Mrs. Sarah G. Blodgett  
 Miss Mary A. Rowell  
 Miss Clara E. Rowell  
 Mr. Warren Draper  
 Mr. Ralph Griffin  
 Mr. Ernest Griffin  
 Stevens Mills

An electric motor was given by the Franklin Light & Power Co., a band saw by Mr. W. F. Duffy and a lot of furniture by Mr. Frank Proctor.

The addition of the new department has so increased the number of boys, in the different courses, that it has necessitated the employing of an assistant. At present, we have enrolled 137 boys from the grades and 44 from the high school, making a total of 181 in all the courses. This is an increase of 38% over the attendance last year, and is partly due to the extension of the work into the fifth grade.

The following table shows the cost of supplies per pupil for the year:

School Department.	Number of Pupils.	Hours per Week.	Current Expense per Pupil.
Grades.	137	2	.72
High School.	44	6%	1.52

The work covered by the 5th, 6th and 7th grades has been very elementary and embraces the following:

Exercises on squaring, planing, sawing, chiseling and boring. To show the practicability of these exercises, the boys have made garden markers, match scratchers, nozzle holders, neck-tie racks, dish drainers, plant stands, magazine racks, etc., etc.

The work of the 8th grade has been a little more advanced, and is at present merging into elementary furniture work. The boys have made key racks, bread boards, meat boards, plant stands, test-tube stands, book racks,

etc. Their work for the remainder of the school year will embrace the smaller furniture projects, such as foot stools, magazine racks, camp stools, sewing screens, hat trees, etc.

Under the supervision of Mr. Haines, the members of the high school sub-freshman class have done much work along the line of furniture making. Several cabinets, for use in the manual training rooms, have been built, together with a large wood-box, a forty-eight section apron closet, a large towel rack and a dish-pan closet to be used in the domestic science room. During the winter term they will construct a dining table and six dining chairs for the same department. The work of the freshman and sophomore classes has been confined chiefly to lathe turning. The first part of the term was spent by the freshman class in turning out stools for the domestic science tables. The tops, legs and rungs were turned on the lathes and then sent to the class in furniture making to be assembled, stained and finished. The following projects have also been turned by the class:

12 Rolling pins (for dom. sci. dept.)

24 Chisel handles (for turning tools)

Darning balls

Card trays

Indian clubs

Potato masher

Fancy cups

File handles

Screw driver handles

Gavels

Nut bowls

Towel racks

Glove darners

Jewel boxes

After completing a few elementary projects in turning, the sophomore manual training class took up a course in pattern making. Through the kindness of the Kidder Machine Co., practical patterns were obtained for this

use. The course has been worked out in the following way:

### Grindstone Flange.

#### Exercise No. 1.

Part 1. Make a mechanical drawing of the project.

Part 2. Construct wooden pattern of the project from the drawing.

Part 3. Make a foundry mould from this pattern.

Part 4. Melt metal and make casting.

In this work the pupil is given a thorough understanding of each step from the drawing of the idea on the paper to the point where it comes out of the sand, a finished casting. Through the kindness of Beaupre Bros., access to a real foundry is always obtainable for the entire class. As has been before stated, this work has been made possible by the installation of power tools and turning lathes. At this point, I wish to give the approximate cost of the new department:

Repairs . . . . .	\$544 92
Supplies . . . . .	60 40
Equipment . . . . .	834 14
Salary of assistant . . . . .	250 00
<b>Total</b>	<b>\$1,689 46</b>

### The Mechanic Arts Course.

As has been seen in the foregoing paragraphs, the high school students are now prepared for a regular mechanic arts course. If such a course could be instituted next fall, the boys of the freshman and sophomore classes would be thoroughly prepared to enter into it. The pattern making course in the sophomore class is being given in view of the fact that such a course might be started.

We have, in our city, at least five shops where services of skilled mechanics are required and at present when a high school graduate goes into one of these work shops, he is obliged to start at the bottom and work up, thus getting the fundamentals very slowly. If these underlying principles can be given in a mechanic arts course, in class-room and shop, both the boy and the employing firm would be better off, and this alone is reason enough

for establishing such a course. There seems to be but one prerequisite to starting this course next fall and that is the erection of a small wooden building, suitable to be used for a forge shop and foundry. The accommodations for advanced machine work will come later. A small shop about 40 feet by 20 feet would serve for these two departments. These must of necessity be segregated from the high school building on account of the noise of the forge shop and the fumes that come from the foundry. There are available sites for such a building on the school grounds, which are not being used at present. The building and equipment for a shop of the dimensions above stated would cost about \$1200 when complete, providing the boys of the department build the structure, which they are capable of doing under the direction of their instructors. This type of building is being constructed in many of the towns and cities of the middle West. With this new department firmly established, there is no reason why a mechanic arts course should not be started next fall. I would at this time submit the following outline of a mechanic arts course to be established in the Franklin High School:

#### **Subjects For the Freshman Year.**

English, 4 periods per week.  
History, 4 periods per week.  
Mathematics (Algebra), 5 periods per week.  
Drawing (Elementary mechanical), 2 double periods per week.  
Shop work, 3 double periods per week.  
    1st term, lathe turning.  
    2nd and 3rd terms, pattern making.

#### **Subjects For the Sophomore Year.**

English, 4 periods per week.  
History, 4 periods per week. (American Constitutional History.)  
Mathematics (Geometry), 5 periods per week.  
Drawing (mechanical), 2 double periods.  
Shop work 3 double periods.  
    1st term, advanced pattern making.  
    2nd and 3rd term, foundry practice.

---

### Subjects For the Junior Year.

English, 4 periods per week.  
Physics, 5 periods per week.  
Modern languages, 4 periods per week.  
Drawing (Machine), 2 double periods.  
Shop work, 3 double periods.  
    1st and 2nd terms, forging.  
    3rd, machine shop practice.

### Subjects For the Senior Year.

English, 4 periods per week.  
Chemistry, 4 periods per week.  
Elementary mechanics, 3 periods per week.  
Drawing (advanced machine), 2 double periods per week.  
Shop work (advanced machine work.)  
    1st, 2nd and 3rd terms, 3 afternoons per week.

---

### High School Drawing.

I have had under my direction, since September 1914, all of the high school drawing classes. The freshman boys have correlated mechanical drawing with their lathe turning work. Before a project was made on the lathe, the boys were required to make a complete mechanical drawing of the same, in order that they might thoroughly understand its construction and details.

The work of the freshman girls has been mainly free-hand drawing, aside from a system of lettering, which was given the first of the term. In the freehand work, they have drawn such objects as baskets, vases, dishes, pottery, etc.

The sub-freshman work has been similar to that of the freshman class, except that it has been a little more elementary. These pupils spent the first month upon simple lining exercises and later took up more advanced projects.

In this connection, I would mention the fact that there is too little time devoted to drawing, for so many pupils. By this, I mean that the classes are far too large to handle with any degree of efficiency. If the classes could be so divided as to make each one half as large as they are at present, better results would be gained.

### The 1914 Summer Manual Training School.

A summer session in the manual training department was conducted last summer, with a considerable degree of success. Boys from the 6th, 7th and 8th grades were allowed to become members of this school, and in the course of six weeks derived much benefit from it.

The enrollment was thirty-one. The program was so varied that the boys did not tire of either work or play. Much benefit was gained from the out-of-door life and athletic activities.

The following weekly program was carried out:

Monday. Shop work.

Tuesday. Baseball or track sports at Odell Park.

Wednesday. Shop work.

Thursday. An all-day hike to the Lake or into the woods.

Friday. Shop work.

The projects made in the shop were similar to those of the regular manual training work.

Respectfully submitted,

CHARLES H. ROGERS.

---

### DOMESTIC SCIENCE.

*Members of the Board of Education and Superintendent of Schools:*

I herewith submit my first report as teacher of Domestic Science in the Franklin High School.

Since September 14, 1914, instruction in cooking has been given to forty-three girls; twenty-four from the freshman class, eighteen from the sub-freshman class, and one special student. Each girl has given eighty minutes each day to this work.

We have a large light room on the southwest corner of the third floor of the High school building. In the center of the room are two large tables on each of which are six individual gas burners. Three girls work on each side of these tables. Each has her own stove, two drawers and a small cupboard. In these drawers and cupboards are the girls' cooking dishes. Every girl has a double boiler, a sauce pan, a small frying pan, a bowl, a granite

pan, a measuring cup, a strainer, a tablespoon, a teaspoon, two knives and a fork. Under her section of the table is a stool which she may use while receiving instruction or waiting while the food which she is preparing, cooks.

We have also a coal range, a gas range, a large soapstone sink, and three set bowls. The large stoves are used when cooking in large quantities or when baking.

The first six weeks we spent in canning and preserving. For three weeks the girls brought their own materials and took home the finished products; the remaining three weeks the school furnished the materials and we sold the products.

During these six weeks the girls canned fifty-six quarts of peaches, thirty-one quarts of pears, ten quarts of plums, fifteen quarts of crab-apples, five pints of grapes, fourteen quarts of chili sauce, twenty quarts of pickles, twenty-one bottles of catsup, eight quarts of tomatoes and nine pints of grape juice. They made also sixteen jars of apple butter, twenty-six jars of grape marmalade, three jars of orange marmalade, fifty-three jars of grape jelly, sixty-four jars of apple jelly, fifty-three jars of crab-apple jelly, thirty-three jars of grape and apple jelly, and fifteen jars of apple and quince jelly.

The last eight weeks the girls have made bread, rolls, coffee cakes, cakes, cream puffs, cookies, gingerbread, puddings, pies, soups, chowders, candy and seventy-two pounds of mince-meat. Much of this cooking was done to fill orders. Everything that has been made has been sold so that cooking materials have cost practically nothing. During this first term we have paid for materials sixty-four dollars and fifty-two cents, and have received from the products which we have sold, sixty-three dollars and thirty-three cents.

During the next two terms the girls will learn to cook meats and fish, make salads and desserts, and will plan, prepare and serve meals to invited guests.

The department gratefully acknowledges the generous gifts of the Woman's Club and several individuals of the city. Any success we may have had is due to a great extent to the interest and support of the citizens of Franklin.

Respectfully submitted,

LOIS A. LEAVITT.

## MUSIC.

*Mr. W. L. Coggins, Superintendent of Schools:*

I herewith submit my third annual report:

The outline for music study throughout the grades, remains much the same from year to year and from each class, it is my aim to gain as much musical intelligence as possible. Music forms, not only a pleasant part of school life, but it is quite as important as any other subject. The absolute concentration demanded of pupils, to master any music at sight, must be of some value to them in other subjects. As in times past, children have furnished music for different occasions outside of school, as well as in school.

The high school chorus is the largest in its history, and it is doing very good work. I feel that there is a growing interest here and I trust it will continue to grow. Outside of regular school work, there is the Girls' Glee Club and High School Orchestra, both of these are larger and doing very good work. Rehearsals are held weekly. Both of these organizations have given several public performances besides our graduation program.

A mixed quartette from the high school recently sang in public, in a very pleasing manner.

Miss Flora Simond continues to accompany for high school music and outside school work.

New books have been put in Grades II, Falls and Nesmith, Grades IV and VIII Falls, to replace worn-out material.

At this time, I wish to thank the teachers for their good work in carrying out lessons assigned for study.

Respectfully submitted,

JULIA ESTELLE CLIFFORD,

Supervisor of Music.

---

## SCHOOL PHYSICIAN'S REPORT.

*To the Board of Education of the City of Franklin:*

I have examined the school buildings and all of the pupils attending school in Franklin and submit the following report:

DOMESTIC SCIENCE DEPARTMENT.

---

**Morrison School.**

This is an unusually good district school house, well lighted with only fair ventilation which should be supplemented with window ventilation.

**Orphans' Home.**

These rooms are well lighted, steam heated with window ventilation, seating fair, sanitation good. In this school and St. Mary's, both of which depend upon window ventilation, the rooms should be flushed with fresh air several times during each session while the scholars are engaged in some active drill.

**St. Mary's.**

The light is very good in nearly all of the rooms, steam heat with window ventilation, sanitation very good. We found several rooms rather overcrowded, which was, I think a temporary arrangement. The seating is excellent.

**Nesmith.**

The light is very good in this building. The seats are poor and should be replaced with modern adjustable seats. The sanitary condition of basement was bad, but has been corrected. The ventilation is not satisfactory, chiefly from a lack of humidity. The same criticism is made concerning the Hancock and High School buildings. Fresh air is taken from out of doors, but while it is being heated by passing over hot surfaces, it is dried and devitalized and rendered unfit to breathe. It has been estimated that five gallons of water should be evaporated each hour in a room containing forty pupils. Hot dry air is a mental excitant and irritant. It parches the mucous membranes, producing catarrh and invites infectious disease. To quote from a Chicago school report, "The discipline of a school is reduced to a simple problem when the air is right, merely humidifying the air in the Graham School and lowering the temperature of all the rooms from seven to ten degrees lowered the number of cases of office discipline 80 per cent. It removed the sources of ordinary friction between pupils and between them and their teachers." This defect can and should be remedied.

### Hancock Building.

The chief defects here are as before stated, too dry air and poor seats.

### High School.

The sanitary condition of basement was not good, but has been corrected. We have in this building a rather modern system of ventilation, but even in this there is no provision for adding moisture. I would suggest that live steam be added to the air as it passes over the hot radiators. Many of the seats are not adjustable and should be changed.

### Physical Examination Summary.

No. of pupils examined . . . . .	1338
Teachers . . . . .	39
Janitors . . . . .	2
Defective teeth . . . . .	699
Defective vision . . . . .	167
Defective hearing . . . . .	35
Anaemia . . . . .	1
Nervous disease . . . . .	1
Skin disease . . . . .	6
Orthopedic defects . . . . .	15
Hypertrophied tonsils . . . . .	112
Adenoids . . . . .	89
Other diseases of oral respiratory tract . . . . .	91
Gland disease . . . . .	1
Unvaccinated . . . . .	274
Cardiac disease . . . . .	1
Other defects . . . . .	12

There has been no epidemic of contagious disease during the year. The object of these examinations is the detection and correction of physical defects. Parents have been notified by card and advised to seek treatment from their family physician. How many of these defects have been remedied we will know after another examination has been made. Each pupil's record is kept upon a card, a sample of which is printed on the next page and the same card will be used during the school life of the pupil.

## New Hampshire Department of Public Instruction

## MEDICAL INSPECTION

Physical record of.....  
 No. children in family.....No. of birth.....  
 Has pupil had chicken pox.....whooping cough.....measles.....  
 diphtheria.....scarlet fever.....mumps.....

Grade	I	II	III	IV	V	VI	VII	VIII	IX	X	XI
Date of Examination											
Height											
Weight											
Malnutrition											
Defective Vision, R. L.											
Defective Hearing, R. L.											
Aenaemia											
Nervous Disease											
Cardiac disease											
Pulmonary Disease											
Skin Disease											
Orthopedic Defects											
Defective Teeth											
Hypertrophied Tonsils											
Adenoids											
Defect of Breathing											
Gland Disease											
Unvaccinated											
Other Defects											
Treatments Secured											

Remarks

Approved by the State Board of Health.

This record is supposed to be continuous throughout the school life of the child.

In the square for the proper grade and opposite the name

of defect found, mark a cross, thus: Malnutrition X. The cross is equivalent to "Yes".

In the case of vision and hearing, indicate the defective eye or ear in the square opposite by R or L, as the case may be. If both are defective, use R L.

The teacher and physician should both be especially careful to follow up cases to see if treatment is secured, and a record should be carefully kept on the line provided for the purpose. This is by all odds the most important entry.

A blank square indicates no defect found, no treatment secured, etc. A blank space is equivalent to "No".

In closing I would suggest the urgent need of improvement in the ventilation of the Nesmith, Hancock and High school buildings. A change of seats in these buildings, some provision for free treatment of the defects found among the children of parents who are not able to pay for the same.

Respectfully submitted,

E. T. DRAKE, School Physician.

---

*Mr. W. L. Coggins, Superintendent of Schools:*

I herewith submit the following report:

For two years an entertainment course has been given under the direction of the Franklin schools. From the first the aim has been to put the best form of entertainment before our boys and girls for a popular and reasonable price. The money gained therefrom was to be used for the schools as agreed upon by the committee in charge.

Some of the money has been used in the following manner: for the improvement of the Nesmith lawn; playground apparatus; Victor records; mileage for a pupil to attend high school and the buying of buttons for the No-license Campaign.

The success of the course has been largely due to the patronage of the citizens for which the committee expresses its appreciation.

Respectfully submitted,

BESSIE C. ROWELL.

# FINANCIAL STATEMENT OF THE ENTERTAINMENT COURSE.

1915.		\$275 50
Jan. 1,	Balance in bank . . . . .	\$42 13

Last year there was a difference of five dollars between the balance as shown by the books and that of the bank.

It was thought that this difference might be found during the year. It has not been found, and accordingly the balance as given by the bank account is used this year. This will explain the difference between the balance as given in last year's report and in this one.

W. L. COGGINS, Treasurer.

---

### HIGH SCHOOL TEACHERS.

Prin. Harry P. Swett, B. A., A. M., graduated from the Gloucester, Mass. High School, the classical course of Amherst College, and took his master's degree from Harvard University in 1905 upon the subjects of Education, Psychology, Ethics, and Philosophy. Mr. Swett has entered upon his eighteenth year of teaching, having taught in Randolph, N. Y. for one year; Salem, Mass. for one and one-half years; Farmington, Conn., for five and one-half years; and has now entered upon his tenth year as principal of the Franklin High School.

Miss Ida M. Manuel, A. B., graduated from Franklin High School and Bates College. Miss Manuel has taught eight terms in the ungraded schools of Northfield and Franklin; two years of Greek, Mathematics, French, and the Natural Sciences in the Pittsfield, N. H. High School; one year of English, Latin, History, and Modern Languages in Westford Academy at Westford, Mass.; and since 1908 she has taught History and Latin in the Franklin High School.

Miss Alice L. Thompson, B. A., graduated from Kimball Union Academy and Mount Holyoke College. Miss Thompson has taught one term in Deerfield, N. H.; one year in the grades in Andover, N. H.; one year in Stoneham, Mass. High School; two years as assistant in the Chemistry department at Mount Holyoke College; and, during her five years in the Franklin High School, she has taught Chemistry, Physical Geography, Zoology, Botany, Physiology, Algebra, Commercial Law, and Commercial Geography.

Miss Mabel F. Moore, A. B., graduated from the Cambridge, Mass. High and Latin Schools and Boston University. Miss Moore has taught American History, French, and German in Whitman, Mass.; Latin, French,

and German for one year in Kingston, Mass.; and has entered upon her third year as teacher of French and German in Franklin High School.

Miss Edith E. Grant, B. A., graduated from Enfield, Conn. High School and Mount Holyoke College. Miss Grant taught for one year in the Grammar School of Westhampton, Mass.; one year of English, Latin, and French in Edgartown, Mass., High School; and has entered upon her third year as teacher of English, English History, Commercial Arithmetic, and Gymnastics in Franklin High School.

Mr. Charles H. Rogers, B. S., graduated from the Exeter High School, the Boston Berkley Preparatory School, and the New Hampshire State College in the Manual Arts Course. He was a students' assistant in pattern making during his senior year in college, and he has entered upon his second year in charge of the Manual Training Department in the Franklin Schools. During the present year, he also teaches the drawing.

Mr. Ray E. Haines graduated from the Laconia High School and has taken four years at the New Hampshire State College in the Manual Arts Course. He was students' assistant in furniture work during one semester of his senior year at college. Mr. Haines began his work last September in Franklin in the Manual Training Department, and he also teaches two classes of Algebra in the High School.

Mr. Ward Wetmore, Sc. B., graduated from the Essex, Mass. High School, the Gloucester, Mass. High School, and Brown University in the Mechanical Engineering Course. Mr. Wetmore began work last September as teacher of Mathematics in the Franklin High School.

Miss Austina B. Raymond, B. A., graduated from Howard Seminary, Wellesley College, and Lowell, Mass. State Normal School. Miss Raymond has taught English and History in Lisbon, N. H. High School, and she began work in the Franklin High School last September as a teacher of English.

Miss Lois A. Leavitt, A. B., graduated from Ayer High School, Boston University, and Boston School of Domestic Science. Miss Leavitt taught German for one year in Ayer High School and began work in Franklin last September as teacher of Domestic Science.

### Grade Teachers at Franklin Falls School.

Eighth Grade: Miss Florence M. Greeley graduated from the Franklin High School, the Chautauqua Literary and Scientific Course of four years, she did one year's required readings in the Chautauquan Teachers' Course, she attended the Plymouth Normal School, but left before graduation to take her present position, and she attended Summer School at Plymouth for several years. Miss Greeley has taught in Franklin for about thirty-five years and she has had her present position for thirty-one years. Miss Greeley holds a state certificate of qualification.

Seventh Grade: Miss Ida J. Smith is a graduate of the Plymouth Normal School. Miss Smith has had private training, taken four courses at the Hyannis Summer School, and received a state certificate. Miss Smith has taught twenty-five terms in the state, of which fifteen were in Franklin.

Sixth Grade: Miss Mabra M. Stevens is a graduate of the Keene High School and the Keene Normal School. Miss Stevens was the assistant teacher in Keene Grammar School for one year, taught various subjects for one term in the Errol, N. H. Grade School, and has been in Franklin four terms.

Fifth Grade: Miss Hattie M. Campbell graduated from High School and the Plymouth Normal School. She has attended the Hyannis Summer School, the Durham Summer School, and several seasons at the Plymouth Summer School besides passing her examinations on one year of the Chautauqua Course. Miss Campbell has taught in Franklin for sixteen years.

Fourth Grade: Miss Lillian B. Currier graduated from the Franklin High School and the Plymouth Normal School. Miss Currier has taught two years in the state previous to beginning work here last September.

Third Grade: Miss Bessie M. Binks graduated from the Franklin High School and the Plymouth Normal School. Miss Binks taught one term in the Plymouth Training School, two terms at the Nesmith Building, and is on her second year's work in her present position.

Second Grade: Miss Helen K. Alexander graduated from the Amherst, N. H. High School and Plymouth

Normal School. Miss Alexander has taught almost four years in the district and graded schools of Amherst, one year of mixed grades in East Jaffrey, N. H., two years in the mixed grades at Dublin, N. H., and began work here last September.

First Grade: Miss Evelyn S. Binks graduated from the Franklin High School and Plymouth Normal School. Miss Binks assisted in the first grade for one year, taught for three years in the first and second grades at Epping, N. H., and is on her second year's work in her present position.

Kindergarten: Miss Lura A. Sargeant graduated from Tilton Seminary, took a post-graduate course of one year there, and graduated from the Lucy Wheelock Kindergarten Training School of Boston. Miss Sargeant has taught one year of primary work in North Dana, Mass., and is now on her fourth year in her present position.

#### Teachers at the Nesmith School Building.

Seventh and Eighth Grades: Miss Bessie C. Rowell graduated from the Franklin High School and the Plymouth Normal School. Miss Rowell taught for three years in the ungraded schools of Franklin; for two years in the eighth and ninth grades at Littleton, N. H.; for one term, the fifth and sixth grades in the Plymouth Normal Model School; one term in the seventh and eighth grades of the Departmental Work in Ayer, Mass.; for one year in the eighth and ninth grades as master's assistant in Brockton, Mass.; and she has been in the Nesmith Building for five years.

Sixth and Seventh Grades: Miss Anna J. Masterson graduated from the Lowell, Mass. High School and the Lowell Normal School. Miss Masterson taught grades six, seven, eight and nine for one year in East Rindge, N. H., and began work here last September.

Fifth Grade: Miss Hazel B. Corey graduated from the Winchester High School and the Framingham Normal School. She has taught one term at the Nesmith Building.

Third and Fourth Grades: Miss Elizabeth Dodge graduated from Proctor Academy and Plymouth Normal School. She taught three years in district schools and has been in Franklin for fourteen years.

Second Grade: Miss Mildred L. Lane graduated from Robinson Seminary at Exeter and has received a state certificate. Miss Lane taught in district schools for two terms; the first four grades in Royalston, Mass. for two terms; the sixth, seventh, and eighth grades in Newfield, N. H. for three years; and began work here last September.

First Grade: Miss Blanche I. Friend graduated from the Manchester High School and the Plymouth Normal School. Miss Friend assisted at the Normal School for nearly a year and has been here for eight years.

Kindergarten: Miss Helen M. Johnson graduated from Colby Academy and Miss Fisher's Training School in Boston. Miss Johnson taught one year in Lynn, three summers in the North Bennet Industrial School of Boston, and has entered upon her second year's work here.

Morrison School District: Miss Beulah E. Easter, teacher. Miss Easter graduated from the Arlington, Mass., High School and the Lucy Wheelock Kindergarten Training School of Boston and has had one year of practice teaching in Winchester, Brookline, and Arlington, previous to beginning work last September in Franklin.

Approved.

W. W. EDWARDS, Mayor.

Passed May 14, 1914.

---

In the year of our Lord one thousand nine hundred and fourteen.

A resolution relating to the "Daniell Scholarship."

*Resolved by the City Council of the City of Franklin, as follows:*

Whereas, Jere R. Daniell of New London, Connecticut, on the second day of April, 1914, by his written communication of that date, addressed to the Mayor and Council of the City of Franklin, expressed his intention of establishing a free scholarship for graduates of the Franklin High School to the Massachusetts Institute of Technology, in memory of his father, the late Warren F. Daniell, and to be known as the "Daniell Scholarship," and together with his letter of the 16th day of May, 1914, in which he agreed to give the sum of two hundred and fifty dollars each and every year, hereafter, beginning September 1st, 1914, to cover the costs of tuition for one student for four years in any one of the courses described in the catalogue of the Institute, and,

That a student to be awarded this scholarship, in whole or in part, must comply with the following named conditions:

First. He must have completed four years' satisfactory work at the Franklin High School.

Second. His parents or parent must reside in

Franklin and be unable without undue deprivation, to pay the tuition required themselves.

Third. He must show during his four years' work at the High school, marked ability in some one of the several subjects covered by the Institute courses.

In case several candidates present themselves in any one year, the scholarship will be awarded by competition in the entrance examinations for the Institute. The candidate entering with highest standing to receive the award.

A holder of the scholarship will be expected to maintain the same standard of work at the Institute as that required of holders of regular Institute scholarships and the scholarship will be withdrawn in case the work is unsatisfactory.

The right is reserved to divide the amount of the scholarship among several applicants should such action seem desirable.

Be it resolved, That the City of Franklin fully appreciates the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young men of said city, thereby creating an additional incentive for higher educational advantages in those who through misfortune or adversity would otherwise be prevented from obtaining the same; and,

Be it further resolved, That said City willingly accepts said trust, and does hereby direct that the annual payment of the sum of two hundred and fifty dollars shall be made to the City Treasurer, who shall pay the annual tuition of said student or students upon the presentation of the bill for same by the Bureau of the Institute, and,

Be it further resolved, That a permanent Committee on Scholarship shall be established to consist of the Chairman of the Board of Education, the Superintendent of Schools and the Principal of the High School of said City of Franklin, and,

Be it further resolved, That this resolution shall annually be printed in the reports of said city.

Approved.

W. W. EDWARDS, Mayor.

Passed June 1, 1914.

## ORDINANCES.

---

An ordinance relating to sewers.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. That the resolution of the City Council adopted May 10, 1895, relating to sewers, be, and the same hereby is, so far modified as to provide for a special assessment or charge only on such persons or corporations as have already, or may hereafter, connect with the new system of sewerage.

Sec. 2, That no person or corporation shall be required to connect with any sewer except by direction of the Board of Health of the city or the City Council.

Sec. 3. All persons who have already, or shall hereafter connect with the new system of sewerage, shall pay to the city the following sums, to wit: For each tenement of seven rooms or less, fifteen dollars; for each additional room in a tenement in excess of seven, two dollars.

Space in buildings occupied wholly or in part for stores, manufacturing, or other purposes than private barns, cellars and store houses or store rooms, or out-buildings, shall be reckoned and paid for on the basis of one hundred and fifty square feet of floor space as one room when connected with the sewer.

Sec. 4. All persons who have already connected with the new system of sewerage shall pay to the City Clerk the amounts for which they are liable under the provisions of Section three within thirty days after the passage of this ordinance, with interest thereafter, and the City Clerk is hereby directed to collect the same.

Sec. 5. No person shall hereafter connect with any public sewer without first obtaining a permit therefor signed by the City Clerk and countersigned by the Highway Agent, and before such permit is issued to connect with the new system of sewerage such person shall pay to the City Clerk the sums for which he would be liable under the provisions of Section three.

Sec. 6. In any case where connection with a sewer is made by the Board of Health, through the neglect or refusal of the owner to comply with their orders so to do, the amount provided to be paid therefor in Section three shall become at once due and payable and collected by the City Clerk, but the City Clerk may issue a permit in such cases without prepayment.

Sec. 7. Every permit to connect with any public sewer issued by the City Clerk shall contain the name of the owner, the number of tenements and rooms in each for which the permit is granted, the location of the tenements and amount paid for such permit, a record of which shall be made by the City Clerk in a book kept for that purpose.

Sec. 8. All connections with any public sewer shall hereafter be made under the supervision of the Highway Agent and in accordance with his directions, and it is hereby made the duty of the Highway Agent to see that all such connections are securely made and in the safest and best manner and that only proper pipe and other materials are used.

Sec. 9. No person or corporation shall deposit any garbage, offal, filth or any substance having a tendency to obstruct the flow of sewage in any manhole, flush tank or sewer opening.

Sec. 10. All fixtures connected with private sewers leading to the public sewers shall be provided with suitable traps and strainers to prevent the introduction of all solids or anything that would obstruct the flow in the pipes.

Sec. 11. Any person violating the provisions of Sections five and eight, nine and ten of this ordinance shall be fined not less than twenty dollars.

Sec. 12. This ordinance shall take effect upon its passage.

Approved. E. H. STURTEVANT, *Mayor*.  
Passed May 4, 1896.

---

An ordinance relating to building in the compact part of the city of Franklin, as follows:

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. No buildings shall hereafter be erected on the north side of Central street, between Sanborn bridge and Daniell bridge; on the south side of Central street between Sanborn bridge and Church street; on Franklin street between Central street and Church street, except the same is constructed with solid outside brick walls at least twelve inches thick.

Sec. 2. This ordinance shall take effect upon its passage.

Approved. E. H. STURTEVANT, *Mayor*.  
Passed May 4, 1896.

---

An ordinance relating to sewers and in amendment of an ordinance passed May 4, 1896.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. Any person connecting with a public sewer, who will sign a written request therefor, may pay an annual rental or tax as follows: For each tenement of seven rooms or less, \$2. For each additional room, in a tenement, thirty cents, payable in advance. The first payment when the permit is granted, subsequent payments to be collected by the Collector with other taxes.

Such rental shall cease whenever such party shall pay the fee heretofore prescribed and any sums due for such rental.

Sec. 2. This ordinance shall take effect upon its passage.

Approved. E. H. STURTEVANT, *Mayor*.  
Passed November 2, 1896.

An ordinance for the promotion of cleanliness in public streets and places.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. No person shall distribute in any public highway within the city, any printed hand-bill, circular or advertisement of any kind.

Sec. 2. No person shall place, throw or deposit upon any public highway, within the city, or upon any sidewalk therein, any paper, garbage, waste or refuse matter of any kind.

Sec. 3. No person shall spit upon the floor of any public conveyance, shop, store, hall, church, schoolhouse, railroad station or other public building in said city, or upon the steps of said conveyances or buildings, or upon the sidewalk of any public street or way in said city.

Sec. 4. Any person convicted of any violation of either section of this ordinance shall be fined not exceeding ten dollars.

Sec. 5. This ordinance shall take effect from and after its passage.

Approved. FRANK H. DANIELL, *Mayor*.  
Passed October 2, 1899.

---

An ordinance relating to cemetery trust funds.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. That Chapter 40, Session Laws of this state for 1899, in which it is provided that (Section 1):

"Any town or city which now holds, or hereafter may hold in trust, by bequest or otherwise, any fund for the care of any cemetery or private lot therein, may pay the same into the town or city treasury, and so long as the same remains therein, said town or city shall pay thereon an annual income at the rate of three and one-half per cent, which income shall be expended in accordance with the terms of the trust by which said fund or funds is held. (Section 2.) This act shall not be in force except in such towns and cities as by vote of the town, or City Council shall so elect."

Be and hereby is adopted and in force in this city, and the City Council so elects.

Sec. 2. This ordinance shall take effect and be in force upon its passage.

Approved. RUFUS G. BURLEIGH, *Mayor*.  
Passed September 3, 1900.

---

An ordinance in relation to the duties of the City Auditor.

*Be it ordained by the City Council of the City of Franklin as follows:*

It shall be the duty of the City Auditor annually, in the month of December, to examine the accounts of the Collector of Taxes and to notify every delinquent tax payer of the amount of his taxes remaining unpaid, by mailing to each in a sealed envelope a copy of this ordinance, together with a statement of the balance due as it appears upon the tax list.

Approved. RUFUS G. BURLEIGH, *Mayor*.  
Passed December 3, 1900.

---

An ordinance relating to the names of streets and their numbers.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. That the names of the streets of the city of Franklin shall be as indicated on the map in the annual report of the city of Franklin, of 1895, with addition of new streets and avenues since laid out, with the following exceptions: That the southern section of Pemigewasset street, running east from North Main street, shall be known as Gerrish street. That the street running from Depot street to Franklin Heights shall be known as Summit street. That the street leading north from Summit street to Pleasant Valley shall be known as Valley street. That the street west of Valley street, leading south from Summit street, shall be known as Gilman street. That the street running north from Central street

near Republican bridge, to Cate brook, shall be known as Glenwood avenue. That the street running northwest from Bow street over Cheney hill to Glenwood avenue shall be known as Cheney street. That the street running west from Bow street past what is known as Davis' block to Glenwood avenue, shall be known as Glen street. That the section of Maple street, running north from foot of Willow hill, then east to that section of Maple street running north, shall be known as Willow Street. That the section of Winnipiseogee street running south from Central street to that section running east, shall be known as River street. The street running east, then north from Franklin street, opposite Church street shall be known as Ayles court. That the section of High street east of the Franklin & Tilton R. R., shall be known as East High street and that section west of said railroad shall be known as West High street. That the street running east from Memorial street to Smith street shall be known as Canal street. That the name of Peabody avenue shall be changed to Peabody place. That the name of Railroad avenue shall be changed to Railroad street.

Sec. 2. The Mayor and Council shall from time to time, as the convenience of the public may require, designate the numbers to be affixed to the buildings on the several streets and squares in the city, and shall designate the names of new streets when laid out. In all streets the odd numbers shall be on the right-hand side, and the even numbers on the left hand side of the streets in the progressive order of numbering, commencing with the lowest numbers and proceeding therefrom with increasing numbers as follows: The numbering of North Main street shall commence at the southerly end at junction of Central and South Main streets. The numbering of all streets connecting with North Main shall commence at North Main street. The numbering of South Main street shall commence at the northerly end at junction of Central and North Main streets. All streets connecting with South Main shall commence numbering at South Main street. The numbering of Summit, Wells and Salisbury streets shall commence at Depot street. The numbering of Valley and Gilman streets shall commence at Summit street. The numbering of Central street shall commence at the westerly end at junction of North and South Main streets. All streets connecting with Central street, ex-

cept Bow and Pearl streets, shall commence numbering at Central street. Bow street shall commence numbering at what is known as Paper Mill square. All streets connecting with Bow street shall commence numbering at Bow street. The numbering of Thompson street shall commence at Glenwood avenue. The numbering of Pearl street shall commence at the southerly end. The numbering of Canal street shall commence at Memorial street. The numbering of School, West High and Winnipiseogee streets shall commence at River street. The numbering of Ayles court and Grove street shall commence at Franklin street. The numbering of Railroad, Elkins and View streets shall commence at School street. The numbering of East High and Russell streets shall commence at Railroad street. The numbering of Spring street shall commence at Prospect street. The numbering of all streets running east from Prospect street shall commence at Prospect street. The numbering of all streets east of Prospect street running parallel with Prospect street shall commence numbering at the northerly end. All streets connecting with Sanborn street shall commence numbering at Sanborn street.

Sec. 3. Every entrance to a building fronting the street shall be designated by a separate number. In the residential portion of the city every lot with a twenty-five-foot front shall be designated with a separate number, and in the business portion of the city every lot with a twelve and one-half foot front shall be designated with a separate number. The business portion of the city is embraced within the following limits: North and South Main streets, between Webster and Depot streets, Central street between River street on the west and Bow street on the east, Smith, Canal, Memorial and Church streets and Franklin street from Central to School streets.

Sec. 4. Any person who shall affix or suffer to be affixed to or shall allow to remain upon any building, any different number from the one designated by the Mayor and Council, shall be fined not less than one or more than five dollars, and a like penalty for every day he shall suffer such building to be so numbered after his first conviction of violating the provisions of this section.

Sec. 5. That measurement of each street in the city shall be made according to provisions of section three of this ordinance, determining the correct number of every

entrance as provided for in section three of this ordinance, and that a correct record of same shall be kept on file in the office of the City Clerk in a convenient manner for the reasonable use of the public at all times. That there shall be transmitted by the person authorized by the committee on ordinances to make said survey, a notice and statement giving name of the street, the name of the owner, the name of the occupant, and the number of the building, together with instructions for procuring and fixing same.

Sec. 6. That the owner of the property shall within sixty days after receiving said notice as per section five of this ordinance, cause to be affixed to every entrance of a building fronting the street, mentioned in said notice, a metallic or other suitable number at least two inches in height, and so situated as to be plainly visible at all times from the street.

Sec. 7. If the owner of any building, after receiving said notice as per section five of this ordinance, fails to comply with the provisions of section six of this ordinance, the said owner shall be fined not less than one or more than five dollars, and a like penalty for every day which the said owner shall neglect so to do after his first conviction.

Sec. 8. This ordinance shall take effect on its passage.

Approved. RUFUS G. BURLEIGH, *Mayor*.  
Passed April 1, 1901.

---

An ordinance in relation to attendance of scholars.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. Any child in the city between the ages of six and sixteen years, without a regular and lawful occupation, who shall, except in cases of ill health, be absent from school more than one day during the space of any one month, unless excused by the teacher of the child, shall be fined not exceeding ten dollars for each offense.

Sec. 2. This ordinance shall take effect on its passage.

Approved. RUFUS G. BURLEIGH, *Mayor*.  
Passed May 13, 1901.

An ordinance relating to fire alarms.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. When an alarm of fire has once been given upon the fire alarm system of the city, it shall be the duty of the person giving the alarm to remain at the box in charge of the same until the arrival of some person detailed to guard such box, except when the fire is upon the premises of the person giving such alarm.

Sec. 2. No person shall ring in a second alarm except under the direction of an engineer of the fire department.

Sec. 3. The chief engineer, or in his absence one of the assistant engineers, shall at once, upon the sounding of an alarm upon the fire alarm system, detail some person to supervise and watch the box from which the alarm was given, and it shall be the duty of such person to remain at said box and protect the same from any person interfering therewith until he is relieved by said engineers.

Sec. 4. Any person violating the provisions of this ordinance or disobeying the orders of an engineer under it shall be liable to a fine not exceeding twenty dollars for each offense.

Sec. 5. This ordinance shall take effect on its passage.

Approved.

RUFUS G. BURLEIGH, *Mayor*.

Passed June 3, 1901.

---

An additional ordinance for the promotion of cleanliness in public streets and places.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. No person or corporation in possession or control of any real estate adjoining a public street, shall place or permit to remain on the premises so occupied by him, any paper or waste matter or substance of any kind, in such a position or place that the same can be carried by the wind upon the public street.

Sec. 2. Every person or corporation keeping for sale at retail on premises adjoining a public street, fruit, nuts, or other goods from which waste is liable to be thrown upon such street, shall keep the highway abutting on the premises occupied by him to the center thereof free and clear of waste substances and matter from such class of

goods as are kept for sale by him at such store, and shall keep and maintain in a wholesome condition all such receptacles for waste matter as may be located by the city upon or adjoining the premises occupied by him.

Sec. 3. No person shall injure, disfigure, destroy or remove any receptacle for waste matter placed by the city upon any public street or place, or place therein any substance for which such receptacle was not designed.

Sec. 4. It shall be the duty of the city marshal and every policeman when on duty to see that this ordinance is strictly observed, and when unable to cause the removal of any such waste matter from the streets by the person depositing the same, he shall forthwith remove the same himself.

Sec. 5. Any violation of this ordinance shall be punished by a fine not exceeding ten dollars.

Sec. 6. This ordinance shall take effect on its passage.

Approved. RUFUS G. BURLEIGH, *Mayor*.

Passed Aug. 5, 1901.

---

*Resolved by the City Council of the City of Franklin as follows:*

That the following rule for governing the action of the Council be and the same hereby is adopted:

Rule 1.

No vote shall be adopted by the Council appropriating money, or incurring a debt exceeding five hundred dollars, at the same meeting at which the resolution is proposed, except by vote in favor thereof by seven members at least of the Council taken by a yea and nay vote.

Approved. RUFUS G. BURLEIGH, *Mayor*.

Passed Nov. 4, 1901.

---

An ordinance for the prevention of accidents upon the highways.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. No person shall drive any horse upon the highways of the city with a cow-bell or any other thing attached to the horse, harness or vehicle, that makes an unusual noise and frightens horses.

Sec. 2. Persons directing automobiles or other vehicles propelled by motors upon the highways of the city, shall upon meeting or passing other vehicles drawn by

horses, which are frightened thereby, come to a full stop or reduce the rate of speed to such extent as necessary to avoid accidents resulting from such frightened horses.

Sec. 3. Any person convicted of a violation of either section of this ordinance shall be fined not exceeding ten dollars.

Sec. 4. This ordinance shall take effect on its passage.

Approved. HARRY W. DANIELL, Mayor.

Passed April 9, 1902.

---

An ordinance in relation to removal of buildings.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. That no building or buildings in the city shall be moved through highways except by owner first obtaining permit from the City Council.

Sec. 2. This ordinance shall take effect on its passage.

Approved. HARRY W. DANIELL, Mayor.

Passed Aug. 4, 1902.

---

In the year of our Lord one thousand nine hundred and four.

An ordinance relating to billiard, pool and lunch rooms.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. No owner or manager of a public pool or billiard room shall allow his pool or billiard tables to be used after ten o'clock at night.

Sec. 2. Any person violating this provision shall be punished by a fine of ten dollars.

Sec. 3. No keeper of any eating place, lunch counter or room shall keep his place open after eleven o'clock at night.

Approved. ISAAC N. BLODGETT, Mayor

Passed March 7, 1904.

---

In the year of our Lord one thousand nine hundred and four.

An ordinance relating to injury to the highways and other city property.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. No person shall with any trenching tool or machine displace the surface of any highway within the city boundaries without permission from the Council or from the chief of the highway department, as the case may be.

Sec. 2. No person shall erect, raise or place any sign, bill-board or other obstruction on or within any highway nor shall any such person erect, raise, place or affix sign, bill-board or advertisement on any lands of the city or any building thereon without consent previously obtained from the Council or head of the appropriate department.

Sec. 3. Any person violating any provisions of this ordinance shall be fined ten dollars for each and every offense.

Approved. ISAAC N. BLODGETT, *Mayor*.  
Passed May 2, 1904.

---

An ordinance relating to pawnbrokers.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. No person shall carry on the business of a pawnbroker, within the City of Franklin unless he is duly licensed therefor by the Board of Mayor and Council. Said Board of Mayor and Council shall, upon application, issue licenses to do business as pawnbrokers to such persons as said Board deem proper; and such licenses shall be for one year from their issue, but may be revoked at any time by said Board of Mayor and Council whenever in their opinion the public good requires. Such licenses shall designate the place where the person licensed may carry on his business, and he shall not carry on the business at any other place within the city; and the fee for such license shall be ten dollars per year.

Sec. 2. Every person licensed as aforesaid shall keep a book or record at his place of business in which he shall enter in English at the time of receiving the same, a minute description of any article left for pawn, particularly mentioning any prominent or descriptive marks on the same, with the name, age and residence, giving the street and number, where possible, of the person from whom he received it, noting also the day and hour and the amount paid or loaned thereon; and such books or record, and the articles left for pawn, shall at all times be

open to the inspection of the Chief of Police or any person authorized by him. No person licensed as aforesaid shall directly or indirectly receive any article in pawn from any minor, knowing or having reasonable cause to believe him to be such, without the consent in writing of the parent or guardian of such minor. And all persons so licensed, when requested to do so by the Chief of Police, shall make a daily statement to him of the articles left with them for pawn.

Sec. 3. If any person shall do business as a pawnbroker without obtaining such license, or if any person licensed as aforesaid shall violate the other provisions of this ordinance, or any of them, he shall be punished therefor by a fine not exceeding ten dollars for each offense.

Sec. 4. This ordinance shall take effect upon its passage.

Approved. GEORGE E. SHEPARD, *Mayor*.  
Passed Nov. 6, 1905.

---

In the year of our Lord one thousand nine hundred and nine.

An ordinance relating to licenses for moving picture shows.

*Be it ordained by the City Council of the City of Franklin as follows:*

That the licenses for moving picture shows shall be one dollar per night and payable monthly in advance.

Approved. ENOS K. SAWYER, *Mayor*.  
Passed March 1, 1909.

---

In the year of our Lord one thousand nine hundred and nine.

An ordinance relating to the speed of automobiles and motor cycles.

*Be it ordained by the City Council of the City of Franklin as follows:*

No automobile or motor cycle shall be operated upon any public highway outside the business district or the compactly built sections of the city at a speed greater than twenty-five miles an hour, or within the business

district or compactly built sections of the city at a speed greater than ten miles an hour.

All ordinances inconsistent with this ordinance are hereby repealed.

Approved.

ENOS K. SAWYER, *Mayor*.

Passed May 17, 1909.

In the year of our Lord one thousand nine hunderd and nine.

An ordinance relating to the fence west of the Free Public Library.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. The sitting upon or leaning against the fence or rail extending west from the Free Public Library to the bridge across the Winnipiseogee River shall constitute a misdemeanor, and any person guilty of said offense shall be punished by a fine of not less than ten dollars.

Sec. 2. This ordinance shall take effect upon its passage.

Approved.

ENOS K. SAWYER, *Mayor*.

Passed July 6, 1909.

An ordinance in relation to street signs, awnings and trees.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. No person shall place or establish any awning or shade before his, her, or their place of business or dwelling house over any part of any street or sidewalk, unless the same shall be composed of cloth and safely fixed and supported by strong iron rods or railings, so as in no wise to incommode passengers, and so that the lowest part of such awning or shades shall be at least seven feet in height above the sidewalk; nor shall any sign or any other fixture or construction be placed on, over, or across any part of any street or sidewalk. Nor shall any person encumber the street or sidewalk before his place of business, or elsewhere with any boxes, or merchandise.

Sec. 2. It shall be the duty of the chief engineer to cause to be removed all awnings, shades, signs, or other fixtures or constructions, constructed otherwise than as provided above.

Sec. 3. No person shall allow the branch or branches of any shade, ornamental or other tree on his, her or their premises to extend over any street or sidewalk, unless the same shall be at least seven feet in height above the street or sidewalk.

Sec. 4. It shall be the duty of the tree warden to remove or cause to be removed the branch or branches of all shade ornamental or other trees projecting over any street or sidewalk if the same shall be less than seven feet in height above the street or sidewalk.

Sec. 5. Any person or persons violating the provisions of this ordinance shall be fined not exceeding ten dollars for each offense.

Approved.

ENOS K. SAWYER, *Mayor*.

Passed by the Council, October 3, 1910.

---

In the year of our Lord one thousand nine hundred and eleven.

An ordinance in relation to licensing dealers of junk.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. That all dealers in old metals, rubbers, rags or junk of any sort shall be licensed. The said license shall be issued by the City Clerk upon recommendation of the Mayor. The cost of said license shall be ten (10) dollars per annum, dating from April 1, for the year ensuing.

Sec. 2. That no dealer shall buy of any minor, under fifteen years of age, any old metals, rubber, rags or junk of any sort, without written consent of their parents or guardian.

Sec. 3. Any person convicted of violating the provisions of sections 1 and 2 of this ordinance shall be fined a sum not exceeding twenty (20) dollars for each offense.

Sec. 4. All ordinances and parts of ordinances inconsistent herewith are hereby repealed and this ordinance shall take effect upon its passage.

Approved.

SETH W. JONES, *Mayor*.

Passed December 4, 1911.

In the year of our Lord one thousand nine hundred and thirteen.

An ordinance relating to the storage of gunpowder, dynamite and other explosives.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. It shall be unlawful for any person, firm, association or corporation to store, deposit or keep for sale any gunpowder, dynamite, or other explosive in a quantity in excess of twenty-five pounds, on any land owned, occupied or controlled by the City of Franklin, or in any building or structure within the city boundaries, if said building or structure is within a distance of eight hundred feet of any dwelling, occupied building, railroad, or public highway.

Sec. 2. Any person, firm, association or corporation violating the provisions of this ordinance shall forfeit a sum not more than ten dollars for every day that gunpowder, dynamite or other explosive shall be so kept.

Sec. 3. This ordinance shall take effect October 1, 1913.

Approved. WILLIAM W. EDWARDS, *Mayor*.  
Passed September 8, 1913.

---

In the year of our Lord, one thousand nine hundred and fourteen.

An ordinance relating to the city ambulance.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. The ambulance recently given to the City of Franklin shall be maintained by it at all times and shall be under the direct control of the City Council of said city.

Section 2. Said ambulance shall be for the free use of any citizen of said Franklin and shall be subject to call by any city official, authorities of the Franklin City Hospital, any resident physician of said city, and of any other person in case of emergency.

Section 3. Whenever said ambulance is called for use in any town adjoining the City of Franklin, the use of same shall be paid for by the party calling for same or by the person in whose behalf same was called. Before

said ambulance shall be taken out of said city, a request for same shall be filed with the City Clerk of said city, who shall notify the Mayor of said city and his consent obtained for such purpose as same is desired.

Approved. W. W. EDWARDS, Mayor.  
Passed August 3, 1914.

---

In the year of our Lord, one thousand nine hundred and fourteen.

An ordinance relating to the inspection, sale and care of milk, skim-milk and cream, and the premises connected therewith.

*Be it ordained by the City Council of the City of Franklin as follows:*

Section 1. That the provisions of Chapter 127 of the Public Statutes, as amended by Chapter 107 of the Session Laws of 1901, relating to the inspection of milk, and amendments thereto, are hereby adopted, to be in force in the City of Franklin.

Section 2. The condition under which every cow is kept whose milk is sold or exposed for sale in the City of Franklin shall be made known to the board of health, if said board shall deem it necessary.

Section 3. No milk shall be sold or offered for sale unless the cow is free from disease and said board of health or any inspector appointed by said board may at any time examine any cow and the premises where same is kept.

Section 4. No milk shall be sold, offered for sale, or distributed in the City of Franklin which was drawn from cows within thirty days before or five days after parturition.

Section 5. No milk kept for sale or distribution shall be stored, strained, cooled or mixed in any barn or room used in whole or in part for sleeping purposes or for the stabling of horses, cows, or other animals or for the storage of manure, offal or other offensive matter.

Section 6. All rooms in which milk is stored, strained, cooled or mixed shall be kept constantly clean, and provision made for the exclusion of dust and flies, to the satisfaction of the board of health. Proper apparatus

shall be provided for washing and sterilizing all utensils used in handling milk and such utensils shall be washed with boiling water or sterilized by steam after being so used.

Section 7. No urinal, water closet or privy shall be located in the rooms mentioned in the preceding sections or so situated as to pollute the atmosphere of said rooms.

Section 8. All milk produced for the purpose of sale shall be strained and cooled as soon as it is drawn from the cow.

Section 9. No person, firm, association or corporation shall sell or offer, expose or keep for sale, in any vehicle, shop, store or other place where goods and merchandise are sold, milk, skim-milk or cream, unless the same is sold, or offered, exposed or kept for sale, in tightly closed or capped bottles or receptacles which have been approved by the board of health of said city.

Section 10. Milk kept for sale shall at all times register on test a temperature not higher than 55 degrees Fahrenheit, and shall be stored in a covered cooler, box or refrigerator.

Section 11. All cans, bottles or other vessels of any kind used in the sale and handling of milk shall be cleaned and sterilized before they are used again for the same purpose. No bottles or other vessels shall be filled except at the dairy or creamery.

Section 12. No one shall use a milk vessel as a container for any substance other than milk.

Section 13. All wagons, sleighs or any other vehicles used in conveying milk, cream or skim-milk for distribution or sale or collecting from raisers, shall be covered or kept in a clean condition, free from odors, and swill or any other refuse or decaying vegetable or animal matter shall not be carried on said wagon, sleigh or other vehicle.

Section 14. Immediately on the occurrence of any case or cases of infectious or contagious disease, either in himself or in his family, or among his or its employees or their immediate associates, or within the building or premises where milk is stored, sold or distributed, the proprietor or manager shall notify the board of health, and at the the same time shall suspend the sale of milk

or cream, until authorized to resume the same by the board of health of said Franklin.

Section 15. No person having an infectious or contagious disease, or having recently been in contact with a person having an infectious or contagious disease shall milk or handle cows, measures or other vessels used for milk intended for sale, or in any way take part or assist in handling milk intended for sale until all danger of communicating such disease to other persons shall have passed, and so certified to by the board of health.

Section 16. No vessels which have been handled by persons suffering from an infectious or contagious disease shall be used to hold or convey milk until they have been thoroughly sterilized.

Section 17. No bottle, vessel or receptacle used for the reception or storage of milk shall be removed from a private house, apartment or tenement wherein a person has an infectious or contagious disease except by consent of the board of health.

Section 18. No person, by himself, or by his servant or agent or as the servant or agent of any other person, firm, association or corporation shall bring into the City of Franklin for the purpose of sale, exchange or delivery, or sell, exchange or deliver any milk, skimmed milk or cream which contains more than 500,000 bacteria per cubic centimeter, or which has a temperature higher than 55 degrees Fahrenheit.

Section 19. The board of health shall keep a record of all inspections made under or by virtue of this ordinance and of the results of such inspections; and shall make a report each month to the City Council showing all inspections made, and the results of such inspections during the preceding month.

Section 20. The board of health of the City of Franklin shall make such order, rule or regulation as it may deem necessary for the compliance with the terms and spirit of this ordinance, and may appoint an inspector whose duties shall be to cause the enforcement of the provisions of this ordinance, and whose salary or compensation shall be fixed and determined by the City Council of said Franklin.

Section 21. Any person, firm, association or corporation, who shall violate or cause to be violated, by agent

---

or otherwise, any provision of this ordinance, or any order, rule or regulation, made by the board of health under the authority of this ordinance, shall upon conviction thereof, before any court of competent jurisdiction be fined the sum of ten dollars, with costs of prosecution, for each offense, except in cases where the punishment is provided by the laws of the State of New Hampshire or the United States, in which cases the penalty so prescribed shall be imposed.

Section 22. This ordinance shall take effect June 1, 1914.

Approved.

W. W. EDWARDS, Mayor.

Passed May 4, 1914.

# VITAL STATISTICS.

TO THE CITY COUNCIL OF THE CITY OF FRANKLIN; In compliance with an Act of the Legislature, passed June Session, 1887, requiring "clerks of town and cities to furnish a transcript of the record of births, marriages and deaths to the municipal officers for publication in the annual report," I hereby submit the following:

## BIRTHS

Date of Birth	Place of Birth	Sex and Condition			Name of the Child (if any)	Name of Father	Maiden Name of Mother	Color of Parents	Residence of Parents	Occupation of Father	Birthplace of Father	Birthplace of Mother
